Re: Preservation of evidence of unredacted juvenile record and related communications and matters

This is a formal preservation notice. Please preserve and not destroy, alter, delete, or conceal any and all records, data, and materials that may be relevant to incidents involving the disclosure or dissemination of an unredacted juvenile record relating to Colton Cohen as a juvenile child and C.G, a juvenile child, and any resulting threats, criminal activities and issues regarding the matter(s) brought to your attention.

Preserved items include, without limitation:

All communications (email, text, SMS, messaging app content, chatlogs) between sheriff's office employees, Boundary County agents and any other agent of the State of Idaho, all communications between Marie Garrett, any third parties concerning the juvenile record and related matters, including records of Adrienne Norris, Mallorie Evoniuk and Misha Davis (et al aliases), all public records requests for information pertaining to Marie Garrett, home address, juvenile children records, including associated communications pertaining to the requests.

All copies of the juvenile record in your agency possession or control, including unredacted versions, and logs showing access, viewing,copying, printing, or transmission.

Body-worn camera, dashcam, in-car, and building surveillance video and audio recordings from 7/5/24 until further notice.

Incident reports, complaint files, internal memos, investigative files, IA/internal affairs records, and dispatch logs relating to the matters.

Personnel files, training records, policies, directives, and communications regarding disclosure of juvenile records, record redaction, and dissemination practices.

Forensic logs, device images, metadata, and any system backups or archives that may contain related material.

Any communications or notices sent to recipients who received and used the unredacted record.

All records associated with Event #47417 on 1/22/26 and 1/23/26 involving Colton Cohen, Including dispatch recordings and all audio/ visual recordings.

Preservation applies to all materials in electronic or physical form, regardless of location or custodian, and includes materials that are deleted but recoverable.

Please confirm in writing within seven (7) days that you have received this notice, are preserving the items listed, and identify the custodians, systems, and date ranges being preserved. Failure to preserve relevant evidence may lead to assertion in any subsequent legal action.

Sincerely,

Marie Garrett, involved party and Mother of affected juveniles

Subject: Re: RE: RE: RE: Public records request

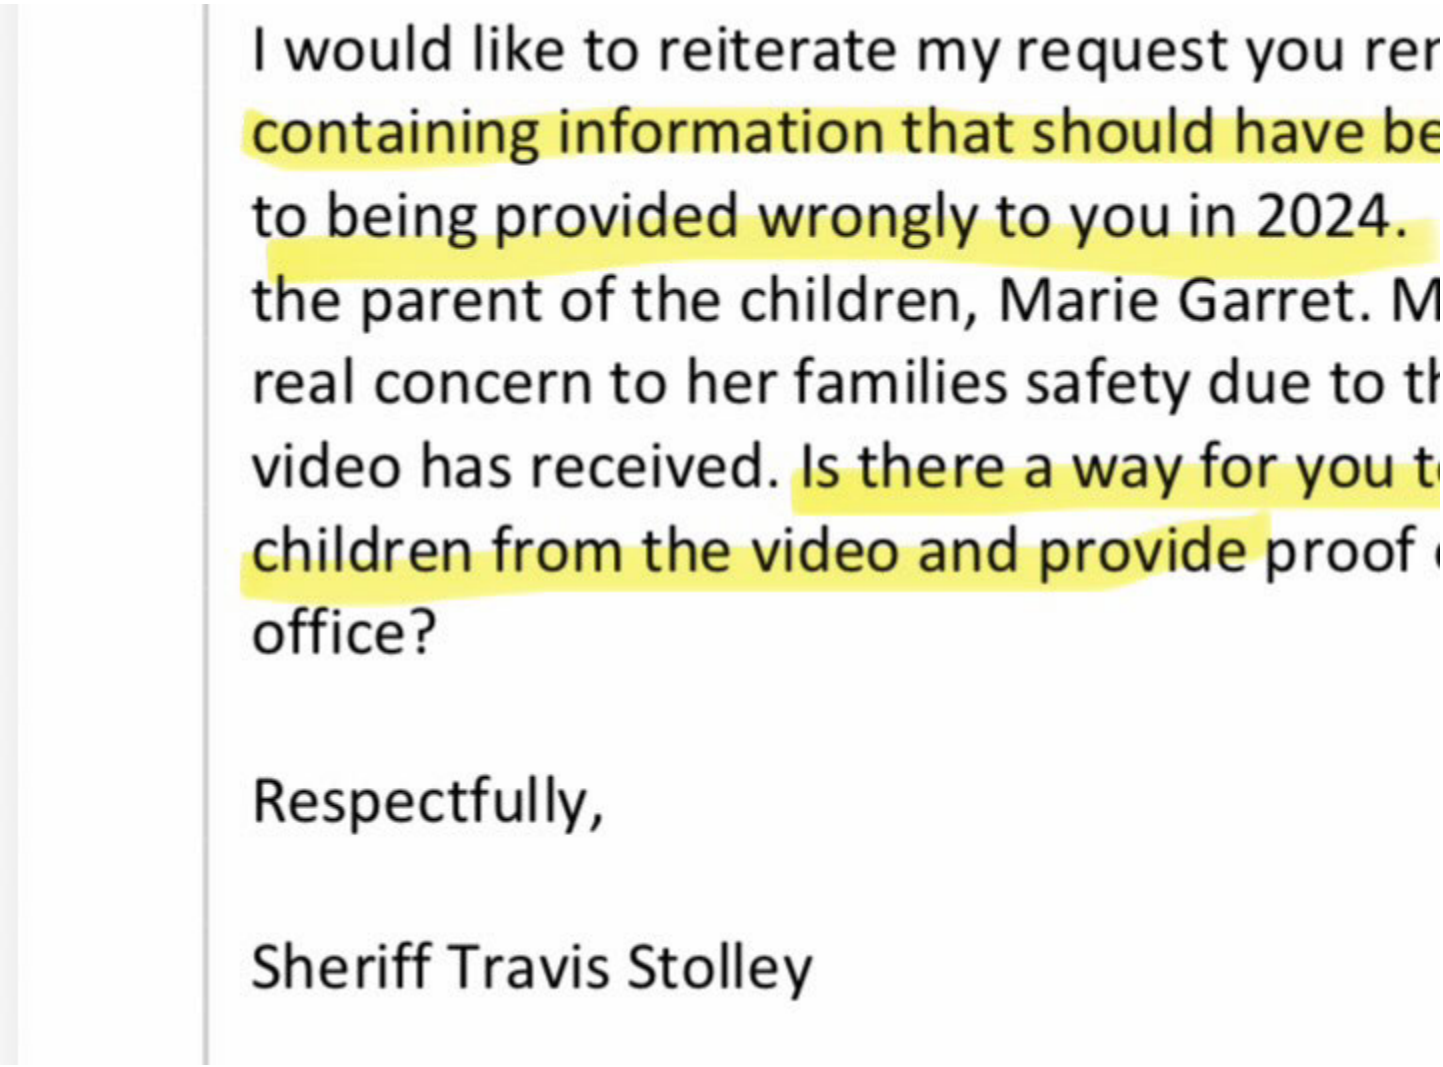

Questions:
Why did the sheriff continue to give Adrienne Norris (our stalker/harasser) the option to retain possession of my juvenile children's identifying record by redacting their names herself, of an unredacted record she was wrongly provided? Furthermore, the sheriff is aware of the harm to our safety incited by this person, with publicly viral use of this record indexed with viral content inciting death threats, threats of harm to our family and home, yet the sheriff is allowing Adrienne Norris to retain this unredacted unauthorized record of my juvenile children with no demands for the unauthorized record to be RETURNED to the custodian of the record (Boundary county Sheriff's office)?

The additional major concern is that the Sheriff has adamantly refused an investigation of this and the crimes being committed on my family. Why is the Sheriff shielding Adrienne Norris, as she commits crimes on my family and children?

Why is this not taken seriously? If this is how all matters concerning harassment and stalking of juveniles and families are handled, I am deeply concerned for all juveniles and families of Boundary County who become a target of "Boundary County Watchman",her affiliates and any other stalkers and dangerous people.

Boundary county officials really need to figure out the appropriate method in handling these matters, rather than permitting stalking and inciting of harm on children and families and burying your heads in the sand.

HOW WOULD YOU FEEL IF THIS WAS HAPPENING TO YOUR FAMILY AND CHILDREN?

Yes, I am seeking any communications to Adrienne Norris regarding her possession and use of my children(s) identifying unredacted record. For the record, it does contain both my children's names (2). Both of which were indeed juvenile children when the incited harm and stalking of my family began over one year ago. (Nearly 16 months ago…beginning in December 2024)

I did also request this information from BCSO over 1 month ago and have not received a response. I am going to go out on a limb and assume the sheriff Stolley continues to communicate with his seemingly shielded friend, Boundary County Watchman via private phone call- as noted previously-when he negotiated with the seemingly shielded friend to continue her possession and use of my children's identifying names—indexed and tagged with Bonners Ferry Police department (where juvenile children do not work)— viral content inciting death threats, threats of harm to my family and home. And yes- Stolley actually acknowledged this and even put it in writing to me. What a great way for the Sheriff to avoid any transparency and accountability in the matter, all while permitting stalkers to continue possession and use of my children's identifying record in a viral, stalking inciting, harmful manner!

Again, if the involved Boundary County agencies were to have a level of transparency in this matter, I would not be having to play this game of "word your public record request just right" and "guess which agency to submit a Public records request to" and "submit another public record request to find out what is happening with matters concerning my children" all involving the dangerous use of unauthorized sleuths using unredacted juvenile identifying record of my children to harm my family.

It would be appropriate for you to acknowledge the issue and provide action on behalf of Boundary County, rather than inappropriate dismissive inaction. This dismissive attitude is no different than your agency being informed that a completely unredacted juvenile record of my children was released by BCSO and disseminated to the internet, creating harm in my family. Boundary county waited 5+ months before emails were casually sent to the persons involved in disseminating the record and subsequent criminal acts against my family. I refer to it as "casual" emails, for reason that Adrienne Norris refused to return the unredacted record identifying my children, and continued the public use of the juvenile identifying record. I have found no evidence that Misha Davis was contacted to return the unauthorized record. There has been zero transparency from your agency and the Boundary county sheriff's office. Any knowledge that I have of communications has solely came through public records requests I have had to submit to receive information regarding my own family.

In October 2025, Sheriff Stolley permitted Adrienne Norris to retain a portion of the unredacted unauthorized record which clearly contained my children's names and was publicly shared on the internet and tagged with the inciting content. The publicly shared portion containing my children's names unredacted incited comments regarding Scott Davis on the video itself. There is no denying the intent of harm on my children and family, no matter the attempt to disregard due to your agency's liability in the matter. The unredacted content identifying my children continued to be published until February 2026.

I received the emails you sent to Ms. Norris concerning the harsssment of your own family, and the manner which you responded to her when she posted publicly a redacted photo of your juvenile family to the internet. Yet for my family, serious matters of unredacted names of my children, clearly tagged with the content receiving death threats and harm on our family and home have been dismissed. I suppose the difference of treatment my family and children are receiving is result of the root of the issue being Boundary County Sheriffs office negligence of releasing the redacted record in the first place and waiting 5+ months after knowing it, before casual emails were attempted to retract the record. This is no excuse for your agency to continue to do nothing.

Your disregard to the inciting of harm on my family's safety is not appropriate. You saw exactly how the identifying information of my children, home and family was TAGGED AND CATEGORIZED WITH THE VERY CONTENT THAT HAS BEEN INCITING DEATH THREATS, THREATS OF HARM TO OUR FAMILY AND HOME ADDRESS.

Your claims of a stranger stalking, surveilling and physically grabbing my son is not result of being maliciously targeted is absurd. This was not a matter of feeling "uncomfortable". Again, harm is being invited on my family by known persons. You are dismissing every indication of the harm to our safety which my family is experiencing. Your dismissive attitude and unwillingness to address the matters is not appropriate.

Stolley communicated with Ms. Norris and Ms. Nevarez regarding the online content and removing unredacted versions, which I believe was done. If you have specific information, threats of harm to you, your children, etc. those need to be formally called into dispatch so that they can be investigated. My office does not have an investigator, as you know.

I have already watched the video footage of Simon Beggerly interacting with Colton as I was responsible for reviewing it prior to its release. I do not believe that Colton was targeted maliciously, but, as was shown in the video, Chief Cowell did address that with the individual and instructed him to stop making Colton uncomfortable. If there have been further incidents, please have Colton report those to law enforcement as well.

Boundary County Prosecutor Andrakay Pluid,

As a measure of government transparency, I am requesting action and to be informed of the measures which Boundary County will be taking to end the inciting of harm and known threats to our safety of my entire family and children in our personal capacity, facilitated by known individuals.

In addition to the several previously expressed indications of my family being stalked and surveilled subsequent to Boundary County releasing unredacted identifying information of my children and family, which was shared viral on the internet, tagged with BFPD death threat and harm inciting content—I implore you to view the body camera footage from an incident that occurred 1/22/26 where my son was grabbed and pulled by a stranger who had been surveilling and stalking my son. 6 days prior to the physical grabbing/ pulling of my son, the stranger approached my son with indications of stalking and surveilling him. This is a complete stranger whom my son had never met, seen or interacted with. The first brief encounter involved the stranger questioning my son of his family being in law enforcement and “noticing” my son changed the plates on his vehicle. The stranger made my son aware he knew personal details of him for which my son did not share with him. The second encounter was the stranger grabbing and pulling my son. In the body camera footage, said stranger admitted to pulling my son “wanting to know who he was, he’s young like 18 or 19” and “wanting to know who his parents was because they worked for the Sheriff”, “Do you know who his parents are, I’m sure you do?, do they work for the Sheriff? Can I have a little more information?…of his parents? The person went on to confirm my son's name several different times. He used my sons name Colton and Cohen throughout. (My son’s name is Colton Cohen) My son never told this complete stranger his name.

I am hoping all I have shared with your agency(s) is enough to spur action of Boundary County to take action in ending the public/viral inciting of harm to my entire family by known individuals. There is a history of known individuals inciting harm on citizens and children, not just on my family but others as well. I know you experienced it from this person to your family to a much lesser extent, and addressed it. The extent of inciting harm on my family and children is severe, direct has escalated and gone unaddressed.

The personal capacity of my husband in his personal life, our children and myself are not individuals whom citizens are first amendment protected from inciting harm with freedom to compromise the safety of our family in personal capacity. They are committing crimes on my family.

Please do not continue to do nothing. My entire family has been publicly/virally targeted in our personal lives , incited harm upon and safety compromised for nearly a year. Enough is enough.

Thanks,
Marie Garrett

Please advise what protocol of law you are enacting to aggregate requests made to different individual agencies within Boundary County?

Clerk Poston,

Following the incidents of my family being targeted, private identifying information of my children published virally public online and my family stalked, I have been led to serious concerns for my family's safety in our own home and documents containing our home address. I have become increasingly aware of the access that a citizen has gained to citizen's home address information.

In Fall 2023, I received several contacts from Adrienne Norris, to which I ignored. I eventually received a text message from Norris stating there was an issue with my voter status and I needed to contact her asap. Norris advised me I would not be allowed to vote in the primary election due to my voter status of Unaffiliated. I then questioned Norris as to how she had obtained my voter affiliation information. She informed me she had a spreadsheet. I requested she provide me the document she had in her possession.The spreadsheet Norris forwarded me includes mine and husbands home address, along with every voter address registered in Boundary County and voter details. I ultimately had told Norris my voter status was none of her business.

Considering my family's experience with being stalked and intently placed in the middle of a public viral target with our children's identifying information by Norris with facilitation of cohorts, I have been increasingly aware and concerned of the harvested access this individual has had to citizen's home addresses. I have been concerned of the extent Norris is disseminating and utilizing this citizen information including home addresses.

I feel I needed to share this information with you. I do have possession of the email from Norris which contains the voter information spreadsheet. Please advise if you would like me to provide this to you. I possibly may have the text messages from Norris claiming there was an issue with my voter status.

I am being denied to address serious concerns due to the fact Boundary County Sheriffs office released COMPLETELY UNREDACTED NON CRIMINAL JUVENILE IDENTIFYING RECORDS of my children, which were subsequently posted to the internet and tagged in with my husband's agency and Officer Scott Davis content which has been receiving viral views (millions), death threats, threats of harm on family and home address. There is substantial documentation of this.

I have been demanding a conflicted investigation into the matters of this and stalking of my family. Sheriff Stolley has refused for 10+ months.

I am now attempting to address this issue with Boundary County commisisoner board. I am being denied that ability. Meanwhile, my family is stalked and harmed. In January 2026, a complete stranger was known to be surveilling my son. 6 days later the same stranger attempted to grab my son. Said individual is affiliated with the persons involved in perpetrating the viral content.

Crimes are being committed on my family. The persons in power in Boundary County are stonewalling our ability to address the serious matters involving our safety.

I am begging your commission to step in and address this. Please do not wait until my family is stalked to the result of being murdered. I am sharing this documentation with extended family. In the event something unthinkable happens to my family, Boundary County will be held directly liable for having knowledge this is persisting, yet not acting within lawful authority to address the serious matters.

I do not need any equipment set up in the Commissioner's chamber to provide a PowerPoint presentation. I would provide my own smaller portable screen and all equipment. Presenting my information via PowerPoint would allow all who is viewing the ability to view the same thing as it is being discussed and specifics of the document are referenced. This is the most effective way for me to address the Commissioners along with the public in attendance.

Please provide me a date/time for availability at the soonest commission meeting. Thank you for your time.

I do not appreciate the denial by you and your agency of my ability to confirm legitimacy of a “once deleted, now not deleted” public record.

This particular record is pertaining to an investigation I had been requesting for 10+ months for your agency to conflict for investigation, which you deliberately refused.

Meanwhile your refusal of conflict referral investigation of criminal matters committed against my family has resulted in the continuance of my family being stalked, and solicited upon significant danger. A known Citizen has been permitted by you to use non criminal, unauthorized unredacted identifying juvenile record (of your agency) to virally target my family and place my children and family in the middle of the viral target which has received death threats, threats on our family and home address. You, as Sheriff are aware of the significant level of threats involved and exactly how my family and children is personally targeted and tagged in the middle of it. Yet you have refused to conflict this for investigation.

As the Sheriff of Boundary County, you have acted in ill bias toward myself and family, you have impeded my lawful access to the criminal justice system.

Furthermore, your refusal to allow me lawful access to confirm the legitimacy of a public record text message which has been deceptive at least is extremely alarming behavior of a public official.

My request to view the actual “once deleted text message, but now not deleted text message” was submitted lawfully. ID Code § 74-102 permits me as a citizen to view this public record in person. Please elaborate on the exemption you are using to deny my ability to vote this record in person to verify legitimacy.

If this is a legitimate text message thread, there should be no issue with my request to view in person. This particular text message has been suspicious since the first date I received it on 7/23/25. There was no reason the message should had been edited that date, not showing dates/times/ sender. On 12/17/25, you- Emily Carey, public records custodian informed me this record had been deleted. I brought this to the attention of the county prosecutor in February 2026, as a deletion of the record is a violation of retention laws and would be a destruction of evidence. In March 2026, this record is suddenly available after it was once “deleted”? The legitimacy of this record must be confirmed. Including confirmation of who the message was transmitted between.

To date, your agency has refused my ability to confirm the legitimacy of this “once deleted” now available record. Your agency has also refused my ability to confirm the recipient of the sender claiming the employee is no longer at the Sheriff’s office and the phone has been “wiped clean”. Your office is refusing my lawful ability to confirm the legitimacy of this “once deleted” text message.

The fact is that every copy of this message I have received appears to be different each time.

Thank You,

Subject: Security breach concerns

I have verified Emily Carey, records custodian of Boundary County Sheriff's Office is accessing Boundary County Sheriff's office email from a personal device, after hours. This is of major concern due to Emily's access to and contained confidential information of citizens within her Boundary County Sheriff's office email account. I hold concerns of major security breaches of confidential content.

1. The security of the records custodian's personal phone is not monitored by Boundary County Sheriff's Office. A network or email hacker could potentially have unfettered access to the Boundary County Sheriff's office confidential records contained within Emily's Boundary County Sheriffs Office work email, accessible on her personal phone device. A major security breach concern.
2. Emily's personal phone device which is not governed by Boundary County Sheriff's Office, with sensitive Boundary County Sheriff's office records accessible via Emily's county work email could potentially be fully accessible to the public if her personal device is not secured with a password and the device is lost/ or stolen. Again, Emily using a personal device to access Boundary County Sheriff's Office email account of sensitive content can create a major security breach for citizens.

Please view the below screenshot which shows Emily sent an email from an iPhone at 8:06 pm on 1/16/26.

Per Emily's 3/11/26 response to my inquiry of:
"Any/all emails transmitted by Emily Carey using a Boundary county sheriff's office email address, after work hours on any device that is a Boundary County Sheriff's office employee issued device for date range 1/1/2026 through 2/1/2026."

Emily's 3/11/26 response:
"I have been unable to locate records responsive to your request."

Based on this information, it is confirmed that Emily Carey is using a personal device to access Boundary County Sheriff's Office email content.

Pursuant to my 3/4/26 public records request, I included:
"Please provide the appropriately redacted responsive record, including sender and receiver info, date/ time of transmitted messages. Please provide a photo of the text message directly from the device."
The document you provided is not a photo of the text message directly from the device, nor does it include the timestamps of transmitted messages. By providing a photograph of the text message directly from the device, legitimacy of this "once deleted" (pursuant to 12/17/25 email), can better be determined. Please provide the record pursuant to my 3/4/26 public records request. I had brought this to your attention on 3/4/26 and have been ignored.

Additionally, on 3/4/26, I had requested to view the text message on the actual device in person. To date, I have been ignored.

Please provide me an update to these concerning issues regarding the previously "deleted" text message, but now "available" following my request for investigation into the matter. Thank you.

I have attached an unredacted copy of the text message to include who it was to. It came from Sheriff Stolley's phone, to former Sergeant Valenzuela (1502). His departure made it so we were not able to get your requested information off of that device. Luckily Sheriff Stolley still had the message thread and was able to provide a copy.

Evidently you are to handle this request. This is pertaining to Bill Wilson's email to Mallorie Evolniuk in September 2025, stating he would re release a redacted version of the 7/5/24 non criminal juvenile record to her after she returned the completely unredacted non criminal juvenile record to Boundary County. I am seeking the record of the re release of the same record, but redacted to Malllorie Evlnik and or Josh Evonik. This forwarded email serves as a formal public records request.

Subject: Public records request

This is a public records request for:
Any/ all public records pertaining to any Boundary County official or agent re-releasing the 7/5/24 dash cam juvenile record of my family to Mallorie Evlniiuk and or Joshua Evoniuk subsequent to the completely unredacted juvenile record being returned to Boundary County Official(s) in September or October 2025. If the requester completed a new public records request to receive a redacted version of the same record, please provide that record pursuant to this request.

I am an Idaho resident.

I sent the request to you, as you were involved in previous communications seeking the return of record. I understand I must PRR agencies separately, which is what I am doing.

This is a reminder that transparency in matters in which a citizen is directly involved would be a preferable way of obtaining answers. I really do not appreciate having to submit public records requests to obtain any information concerning the issues that are affecting my family, that of which Boundary County Sheriff's office created the issue- through release of completely unredacted records.

This "guessing game" of how to word requests and where to submit PRRs to obtain answers is not ideal or appropriate. Transparency would be appreciated in this matter, considering myself and family are the affected ones.

I am attempting to receive records of any contact your office has made in regard to the individuals in possession of my juvenile family unredacted records released by BCSO. Which would include Adrienne Norris aka Boundary County Watchman and Misha Davis et al aliases, as you were made aware those two known individuals remained in possession of the unauthorized records. I am attempting to receive record of your office making contact with the known individuals in regard to the unredacted juvenile records in their possession.

My 2/19/26 was a request for:

"Any indication of Status of public records request pertaining to Marie Garrett, Jeremy Garrett (in personal capacity), Colton Cohen, C[redacted] (a juvenile), our home address (not provided for privacy purpose) for the date range 12/6/25 through present.
My 3/10/26 request is a request for:
"Any/all public records for date range 12/1/25 through present pertaining to any/all contacts with individual(s) in possession of Boundary County unredacted juvenile record(s) of my family. This includes any/all electronic and/or handwritten record, any/all text messages or call log on a Boundary County issued device pertaining to the matter referenced above."

RE: Public Records Request

Dear Marie Garrett,

We are in receipt of your public records request for: "Any/all "archived" text messages subject to retention schedule on the Boundary County Sheriff's office issued phone device of Sargent Mike Valenzuela and Deputy Sheriff Dale Anderson, containing "Marie Garrett" for date range 4/21/25 through 9/15/25"

I have been unable to locate records responsive to your request. The devices those 2 individuals were issued have been re-issued and the information contained on them was deleted prior to re-issue. The information is no longer accessible by me. I am unaware of any archived text messages relating to your request.

In the event you have any questions or concerns regarding our response to your request, please feel to contact me directly. If our agency is unable to address or resolve your concerns, you may seek redress in district court within 180 days of this mailing as set forth in Idaho Code §74-115.

Subject: PRR

I would appreciate your time in preparing the below public records request: This is a public records request for:

Any/all “archived” text messages subject to retention schedule on the Boundary County Sheriff’s office issued phone device of Sargent Mike Valenzuela and Deputy Sheriff Dale Anderson, containing “Marie Garrett” for date range 4/21/25 through 9/15/25

Please send responsive records via email delivery.

Ms. Sims,

I am returning a record I received from your office pursuant to a public records request I submitted. In which the separately forwarded unredacted record was included. Said released unredacted record on 2 separate pages contain:

Page 1: Supreme Arms invoice
*Unredacted complete home address of Sheriff Travis Stolley.
*Unredacted personal phone number of Sheriff Travis Stolley.
*Unredacted personal email address (Gmail) of Sheriff Travis Stolley.

Page 2: Magnum Ballistics invoice
*Unredacted complete home address of Sheriff Travis Stolley.
*Unredacted personal phone number of Sheriff Travis Stolley.
*Unredacted personal email address (Gmail) of Sheriff Travis Stolley.

I am returning this record to the Boundary County Board of commissioners. Please provide me the properly redacted record. I am maintaining possession of this email without the unredacted record content, for my record. (Thus the reason I am sending/returning to you the actual unredacted record separate from this email)

I remain concerned of the privacy law breaches of Boundary County. This is dangerous. If this information were to get into the wrong hands and published to the internet (such as the unredacted record identifying my juvenile children did) it could be a serious safety breach.
Considering the extent of harm of viral solicited harm my own family and children have experienced with completely unredacted records released by BCSO, I am concerned that records continue to be released unredacted by Boundary County agencies. This is the very problem I have been alerting the officials to, with no proven accountability and transparency. This is unacceptable.

Emily,

Can you please provide me with the status of this records request?

This request for information concerns my family's safety.

I would appreciate the responsive records, to better know in advance of any further safety compromise my family may experience as result of BCSO releasing the records. The fact is my family's non criminal juvenile records have already been used in a manner to publicly solicit danger on my family and home, mingling my kids' identifying information and visual of our home, tagged and categorized with the content that has incited the viral narrative with continuing death threats and concerning threats on our families and home.

I find it appropriate to timely receive the records pertaining to this request.

I find it appropriate for me to receive the responsive records pertaining to my PRR within IPRA timeframe, as it does involve likely further safety issues for my family if your agency chooses to release the non criminal juvenile content. (Based on the historical dissemination/ facilitation of harm through the use of my family's non criminal public records)

Can you please assist in determining the ETA on this particular PRR?

I have submitted PRRs to determine the status on records being requested of myself and family. I am requesting these particular PRRs to be responded t as soon as possible (we are beyond 10 calendar days). Which is ordinarily fine, but on these particular records it involves my family's safety and the historical events surrounding the use of my family's non criminal juvenile records to facilitate soliciting of harm and stalking of my family.
I would appreciate the responsive records for the status on the responsive PRR records of myself, home address and family to better know in advance of any further safety compromise my family may experience as result of BCSO releasing the records.
The fact is my family's non criminal juvenile records have already been used in a manner to publicly solicit danger on my family and home, mingling my kids' identifying information and visual of our home, tagged and categorized with the content that has incited the viral narrative with continuing death threats and concerning threats on our families and home.

ADDITIONAL FORMAL NOTICE FOR APPLICABLE EXEMPTION(S) OF ANY PUBLIC RECORDS REQUEST RECEIVED PERTAINING TO MARIE GARRETT, HOME ADDRESS (redacted for privacy), AND PARTIES INVOLVED. (Including juvenile records)

In addition to the previous emails I have sent your agency, outlining applicable exemptions to records requests received of myself, home address and juvenile records, I am hereby alerting your agency a 3rd party investigation is active. Your agency providing the Requester(s) with the records pertaining to matters involved in an Active investigation will breach a pending investigation. Providing the records will assist the alleged suspect(s) in curating their defense.

Release of my communications has previously occurred during the course of the conflicted ISP investigation of me. Said individuals received records that were pertaining to communications involved in that active investigation regarding matters that I have communicated that had gone uninvestigated. The records were previously released to an involved party of that investigation, prior to the individual being interviewed by the detective and prior to the finalization of that investigation. This allowed the individual to be privy to communications involved in that active investigation. Release of communications during an investigation assists a person in curating a story.

I realize your agency has failed to conflict an investigation into my criminal complaints, however, this is formal notice for your agency to not further compromise the integrity of an active investigation into the matters as requested in PRRs by third party. Furthermore, It is documented who the third party's client is behind the Public records request(s)

Please reply as confirmation of receipt of this notice.

Thank you,

I understand your concern about not receiving the complete record. I can't speak to why that happened or why Ms. Carey indicated it was deleted when it was not. Again, the SO should be getting you a copy that does not have the issues you identified soon.

At this point, I do not see what would need to be further investigated. Ms. Carey was certainly incorrect in her prior statements, but being incorrect isn't something that requires investigation.

The last information I received was that you had more than 20 requests for records pending with the BCSO. As I am sure you can understand, that in and of itself is creating a delay in getting responses to you. However, I have asked Ms. Carey to prioritize getting this particular record to you as soon as possible.

The text message received as page 7/7 of responsive documents on 7/22/25 was inappropriately edited/redacted when it should not had been. The text did not indicate dates/ times of the transmisssion of communications or sender/receiver. The content I received was highly doctored.

On December 17, Emily stated she had record of the same (edited) text that was provided to me 7/22/26, but the original was deleted. Thus the reason I could not address the issue of why and how the text message was sent to me on 7/22/25 highly doctored. Emily stated that she received the text message in that edited format. This really needs to be investigated by a non conflicted party. There is a large problem with this, and is relevant to the course of conduct I have experienced from the Sheriff.

I figured it would be a conflict of interest for you to investigate the matter.

The forwarded email thread between myself and Emily Carey, BCSO records custodian reveals exactly what happened. The text message was deleted prior to the retention date.

Furthermore, the text message that was deleted was initially provided to me edited, when it should not had been. It clearly shows there is deception in how Sheriff Stolley has handled matters concerning myself and family. This is further evidence of the obstruction I have been receiving from Sheriff Stolley.

I do not wish for this to be swept under the rug. I am specifically requesting a non conflict investigation into this matter.

The large issue is that Sheriff Stolley would be the one responsible for deletion of the record. This action is relative to the deliberate obstruction I have received into investigation of my criminal complaints (which requires a referral to a non conflict agency by him).

I do not find it appropriate to involve the Sheriff himself. Considering the text messages are presumably involving him as a sender, this would indicate he is the one responsible for the deletion of the record

prior to the retention schedule. This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

This warrants a non conflict referral for investigation. I am aware it is not ethical for the Sheriff to Obstruct investigations and delete records prior to the eligible retention

schedule.

My understanding from speaking with the Sheriff is that Ms. Carey was incorrect about the text message being deleted, he indicated he still has it and provided a new copy to Ms. Carey to provide to you. I will check on the status of you getting that record.

I figured it would be a conflict of interest for you to investigate the matter.

The forwarded email thread between myself and Emily Carey, BCSO records custodian reveals exactly what happened. The text message was deleted prior to the retention date.

Furthermore, the text message that was deleted was initially provided to me edited, when it should not had been. It clearly shows there is deception in how Sheriff Stolley has handled matters concerning myself and family. This is further evidence of the obstruction I have been receiving from Sheriff Stolley.

I do not wish for this to be swept under the rug. I am specifically requesting a non conflict investigation into this matter.

I do not find it appropriate to involve the Sheriff himself. Considering the text messages are presumably involving him as a sender, this would indicate he is the one responsible for the deletion of the record prior to the retention schedule. This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

This warrants a non conflict referral for investigation. I am aware it is not ethical for the Sheriff to Obstruct investigations and delete records prior to the eligible retention schedule.

Good morning,
Would you mind updating me on how this situation is being handled?

I figured it would be a conflict of interest for you to investigate the matter.

The forwarded email thread between myself and Emily Carey, BCSO records custodian reveals exactly what happened. The text message was deleted prior to the retention date.

Furthermore, the text message that was deleted was initially provided to me edited, when it should not had been. It clearly shows there is deception in how Sheriff Stolley has handled matters concerning myself and family. This is further evidence of the obstruction I have been receiving from Sheriff Stolley.

I do not wish for this to be swept under the rug. I am specifically requesting a non conflict investigation into this matter.

I understand he is the custodian of the records for BCSO. I am requesting this matter be investigated and addressed by the appropriate non conflict agency.

The large issue is that Sheriff Stolley would be the one responsible for deletion of the record. This action is relative to the deliberate obstruction I have received into investigation of my criminal complaints (which requires a referral to a non conflict agency by him).

I do not find it appropriate to involve the Sheriff himself. Considering the text messages are presumably involving him as a sender, this would indicate he is the one responsible for the deletion of the record prior to the retention schedule. This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

This warrants a non conflict referral for investigation. I am aware it is not ethical for the Sheriff to Obstruct investigations and delete records prior to the eligible retention schedule.

> In July 2025, I was seeking records pertaining to an investigation into my criminal complaint. I submitted a PRR. In response, I received 7 pages. This text message was included in the 7 pages. The other 6 pages were only emails of me asking for status of an investigation being done and emails of Travis Stolley referring me to ICRMP as a reply into my inquiries of investigation into the criminal matters committed against my family and I. Since then I have inquired on an investigation report and case number. There is nothing that indicates an investigation was conducted or referred for a non conflict investigation.

message. It was stated by Emily it was not available as the it had been deleted as a “media recording”. Clearly, writings of communication are not media recordings.

would had been sent sometime between 4/21/25 and 7/23/25. Presumably by Travis Stolley. I am being informed the record does not exist. This is an issue of deletion of records prior to the records retention schedule. This text obviously does not contain an audio or video recording, so it would not be categorized as “media recordings”.

I am checking status on this. I have not received any reply to my email(s) nor have I received the redacted version of the returned unredacted record(s), which I returned to your agency 1/26/26.

Please provide me the redacted versions of record(s) pursuant to my public records requests.

Sheriff Stolley,

I am returning a 94 page pdf file which I received from Boundary County Sheriff's Office records custodian Emily Carey, pursuant to a public records request I submitted. The separately emailed provided responsive record was included. The responsive record appears to contain 18 noted unredactions of personal information,including juvenile identifying information,(1)- 9 DIGIT SOCIAL SECURITY NUMBER, and additional likely other issues.
The content also shows a contradictive statement of Mike Rosenthal to information he has provided in other records correspondence, along with a concern of potential officer safety information voluntarily shared by Mike Rosenthal with Requester. The FBI background correspondence shows an explicit confidentiality statement that no part of the content is to be disseminated or reproduced without written consent of the sender. I interpret the statement as that I should not be in possession of the documents.

Please review the information I am providing you and investigate the matters of privacy breach issues within your agency. After 9+ months of me alerting you as a private citizen, that there is an issue within your agency, by my own experience, I am providing you additional information which further necessitates action of you and your agency to resolve the issues and enact compliance of applicable privacy laws. Citizens have an expectation of reasonable privacy and compliance of IPRA.

I am returning this record to the Boundary County Sheriff's Office. I would like the redacted record provided to me. I am maintaining possession of this email without the unredacted record content, for my record. (Thus the reason I am sending you the actual unredacted record content separate from this email)

This may be exempt personnel information. It is seeming informing people when Officers are on/off shift is a potential officer safety issue. This is information people can harvest to use to establish patterns of work shifts and be privy to Officer schedule information, potentially creating a safety breach for the Officer and family. I viewed this as a red flag, but unsure if it qualifies for exemption.

I have not received any reply to my email(s).

I am following up on my request to receive the unredacted returned record(s) provided to me with proper redactions. Please advise status of this. I returned the unredacted records 1/22/26.

I would also like to ask if juvenile children's parents: Kailey and Jared Gardin, Chistian Banuet and Samantha Cote/or Samantha Banuet will be notified of the release of unredacted juvenile names and the return of said unredacted record regarding their juvenile children?

I remain concerned of the privacy law breaches of the Boundary County Sheriff's Office. Considering the extent of harm my own family and children have experienced due to completely unredacted records released by your agency, I am concerned that records continue to be frequently released unredacted. This is the very problem I have been alerting you and your agency to for 9+ months. Nobody in power has listened and proven accountability and transparency. This is unacceptable.

The forwarded email thread between myself and Emily Carey, BCSO records custodian reveals exactly what happened. The text message was deleted prior to the retention date.

Furthermore, the text message that was deleted was initially provided to me edited, when it should not had been. It clearly shows there is deception in how Sheriff Stolley has handled matters concerning myself and family. This is further evidence of the obstruction I have been receiving from Sheriff Stolley.

I do not wish for this to be swept under the rug. I am specifically requesting a non conflict investigation into this matter.

I do not find it appropriate to involve the Sheriff himself. Considering the text messages are presumably involving him as a sender, this would indicate he is the one responsible for the deletion of the record prior to the retention schedule. This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

This warrants a non conflict referral for investigation. I am aware it is not ethical for the Sheriff to Obstruct investigations and delete records prior to the eligible retention schedule.

The other 6 pages were only emails of me asking for status of an investigation being done and emails of Travis Stolley referring me to ICRMP as a reply into my inquiries of investigation into the criminal matters committed against my family and I. Since then I have inquired on an investigation report and case number. There is nothing that indicates an investigation was conducted or referred for a non conflict investigation.

Which is what I will do if, after review with the sheriff, is warranted. However, I am not going to refer something for investigation without a sound reason.

You may not investigate complaints, but you do have a statutory duty to refer activities such as this to the proper authority for investigation.

Can you advise what manner my complaint will be handled?

Considering the text messages are presumably involving him as a sender, this would indicate he is the one responsible for the deletion of the record prior to the retention schedule. This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

This warrants a non conflict referral for investigation. I am aware it is not ethical for the Sheriff to Obstruct investigations and delete records prior to the eligible retention schedule.

I figured it would be a conflict of interest for you to investigate the matter.

The forwarded email thread between myself and Emily Carey, BCSO records custodian reveals exactly what happened. The text message was deleted prior to the retention date.

Furthermore, the text message that was deleted was initially provided to me edited, when it should not had been. It clearly shows there is deception in how Sheriff Stolley has handled matters concerning myself and family. This is further evidence of the obstruction I have been receiving from Sheriff Stolley.

I do not wish for this to be swept under the rug. I am specifically requesting a non conflict investigation into this matter.

I do not find it appropriate to involve the Sheriff himself. Considering the text messages are presumably involving him as a sender, this would indicate he is the one responsible for the deletion of the record prior to the retention schedule. This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

This warrants a non conflict referral for investigation. I am aware it is not ethical for the Sheriff to Obstruct investigations and delete records prior to the eligible retention schedule.

In exactly the same way I previously told you. I have reached out to the sheriff to attempt to understand where the issue is. If it warrants further action we will address it.

Can you advise what manner my complaint will be handled?

This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

I believe this warrants a formal investigation by a third party, considering the Sheriff himself is presumably the sender of the record that was deleted prior to retention schedule.

Subject: DELETION OF RECORD PRIOR TO RETENTION SCHEDULE

Andrakay,
I am being informed this record no longer exists. This message would had been sent sometime between 4/21/25 and 7/23/25. Presumably by Travis Stolley. I am being informed the record does not exist. This is an issue of deletion of records prior to the records retention schedule. This text obviously does not contain an audio or video recording, so it would not be categorized as “media recordings”.

I had requested the complete message because it is obviously redacted/edited to the point of not determining who this message is to, despite that being information that should had been provided. The sender is presumably Travis Stolley.

I am requesting this matter addressed appropriately, as this is one more indicator of the unethical issues I am experiencing. My criminal complaints continue to be uninvestigated. It is apparent there is unusual activity in how my criminal complaints are handled. This needs to be addressed.

When will
decision r
Garrett's
need to g
follow up?
I'm still reviewing
it today
K. Thank

I can understand why that would be frustrating, I am not sure why that happened. I pulled that particular request as I keep all requests and responses to those requests together and filed in alphabetical order. In looking at that request/response that is how I received that information. There were no redactions made to that page by myself prior to sending it to you.

We of course can set up a time for you to view it, I just thought I would let you know it will be the same as what you have already received.

Please advise how you would like to proceed.

Emily,

I have been stewing over the lack of information contained in my request

for records concerning an investigation into my 4/21/25 complaint addressed to the Boundary county Sheriff's Office. Page 7 of 7 in the responsive documents on 7/23/25 shows a redacted text message between unrevealed parties. Can you advise why this document is redacted?

Also, can you allow me a time to examine the unredacted

Andrakay Pluid

From: Marie Garrett <[redacted]
Sent: Thursday, February 26, 2026 2:21 PM
To: Andrakay Pluid
Subject: Re: RE: DELETION OF RECORD PRIOR TO RETENTION SCHEDULE

I understand he is the custodian of the records for BCSO. I am requesting this matter be investigated and addressed by the appropriate non conflict agency.

The large issue is that Sheriff Stolley would be the one responsible for deletion of the record. This action is relative to the deliberate obstruction I have received into investigation of my criminal complaints (which requires a referral to a non conflict agency by him).

Considering the text messages are presumably involving him as a sender, this would indicate he is the one responsible for the deletion of the record prior to the retention schedule. This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

The other 6 pages were only emails of me asking for status of an investigation being done and emails of Travis Stolley referring me to ICRMP as a reply into my inquiries of investigation into the criminal matters committed against my family and I. Since then I have inquired on an investigation report and case number. There is nothing that indicates an investigation was conducted or referred for a non conflict investigation.

Your disagreement is noted. He is still the custodian of the record you are seeking, so there's no way for us to address your concern without involving him/his department.

I do not find it appropriate to involve the Sheriff himself. Considering the text messages are presumably involving him as a sender, this would indicate he is the one responsible for the deletion of the record prior to the retention schedule. This is one more indicator in the obstruction into an investigation, which I am receiving from the Sheriff himself.

This warrants a non conflict referral for investigation. I am aware it is not ethical for the Sheriff to Obstruct investigations and delete records prior to the eligible retention schedule.

I reached out to the sheriff and asked him to look into this. I don't have access to any of the records of other departments, so I cannot speak to what exists or doesn't.

In July 2025, I was seeking records pertaining to an investigation into my criminal complaint. I submitted a PRR. In response, I received 7 pages. This text message was included in the 7 pages. The other 6 pages were only emails of me asking for status of an investigation being done and emails of Travis Stolley referring me to ICRMP as a reply into my inquiries of investigation into the criminal matters committed against my family and I. Since then I have inquired on an investigation report and case number. There is nothing that indicates an investigation was conducted or referred for a non conflict investigation.

In December, through PRR, I requested the full photo of the text message. It was stated by Emily it was not available as the it had been deleted as a "media recording". Clearly, writings of communication are not media recordings.

I am requesting this matter addressed appropriately, as this is one more indicator of the unethical issues I am experiencing. My criminal complaints continue to be uninvestigated. It is apparent there is unusual activity in how my criminal complaints are handled. This needs to be addressed.

Re: Records Request

Marie –

We have received your request for the case number/report number/event number for this specific record (page 7/7 responsive doc sent per your 7/22/25 PRR)

The information you are requesting does not exist. In the event you have any questions or concerns regarding our response to your request, please feel to contact me directly. If our agency is unable to address or resolve your concerns, you may seek redress in district court within 180 days of this mailing as set forth in Idaho Code §74-115. Also, per Idaho Code §74-103, your request was forwarded to our agency civil counsel for review.

Thank you,

I pulled that particular request as I keep all requests and responses to those requests together and filed in alphabetical order. In looking at that request/response that is how I received that information. There were no redactions made to that page by myself prior to sending it to you.

We of course can set up a time for you to view it, I just thought I would let you know it will be the same as what you have already received.

Please advise how you would like to proceed.

Emily,

I have been stewing over the lack of information contained in my request for records concerning an investigation into my 4/21/25 complaint addressed to the Boundary county Sheriff's Office. Page 7 of 7 in the responsive documents on 7/23/25 shows a redacted text message between unrevealed parties. Can you advise why this document is redacted?

Also, can you allow me a time to examine the

unredacted document in person?

Andrakay,
I am being informed this record no longer exists. This message would had been sent sometime between 4/21/25 and 7/23/25. Presumably by Travis Stolley. I am being informed the record does not exist. This is an issue of deletion of records prior to the records retention schedule. This text obviously does not contain an audio or video recording, so it would not be categorized as “media recordings”.

I had requested the complete message because it is obviously redacted/edited to the point of not determining who this message is to, despite that being information that should had been provided. The sender is presumably Travis Stolley.

I am requesting this matter addressed appropriately, as this is one more indicator of the unethical issues I am experiencing. My criminal complaints continue to be uninvestigated. It is apparent there is unusual activity in how my criminal complaints are handled. This needs to be addressed.

I was able to do some digging into this situation, we have found that, per Idaho Code 31-871, we no longer have this information. 31-871(e) states that: Law enforcement media recordings that have no evidentiary value and that are recorded by the law enforcement agency's equipment that is not affixed to any building or structure's interior or exterior wall shall be retained for not less than sixty (60) days from the date the recording was made. Hello Ms. Garrett

Your request has not been denied. The original request was filled and is available for pickup once the fee is paid. You also cannot modify the request after it has been filled in an attempt to avoid the fee the county has incurred to fill it.

Once that fee is paid, we can then move onto your most recent request where you will be provided an estimate on additional costs involved before we proceed.

Your request was fulfilled exactly as you requested it. The fee for that is $18.92. If you wish to modify your original request there will be an additional fee for the flash drive.

Let me know if you wish to leave your request as the original or if you wish to modify it to add a flash drive.

Thank you

The pages already printed prior to my receipt of a cost estimate is not my issue.
I received your cost estimate this morning to which I am requesting the records to be provided on a flash drive due to the size.

Thanks.

The pages are already printed, so if you want it on a flash drive then I would need to add another $10 to the cost listed below for a total of $28.92.

Do you still want me to proceed?

For this amount of pages, please provide on a flash drive. I only began requesting paper copies because BCSO claims they cannot email 26 pages+. For 184 pages it makes sense for me to request a flash drive. Thank you

I have compiled your public records request with the exception of the Prosecutors office, which I understand submitted their items to you directly. There are too many files for email delivery, so I have printed them for you as requested. We have a total of 184 pages and a total of 2.5 hours of county time put toward this request and I have itemized the cost for you below.

Your request will be located in the Clerk/Auditor's Office (Room 22) at the Courthouse, with the payment amount of $18.92 required. This completes your public records request.

100 pages	.00
84 pages	8.40
2 hours	.00

I am returning a 94 page pdf file which I received from Boundary County Sheriff's Office records custodian Emily Carey, pursuant to a public records request I submitted. The separately emailed provided responsive record was included. The responsive record appears to contain 18 noted unredactions of personal information,including juvenile identifying information,(1)- 9 DIGIT SOCIAL SECURITY NUMBER, and additional likely other issues.
The content also shows a contradictive statement of Mike Rosenthal to information he has provided in other records correspondence, along with a concern of potential officer safety information voluntarily shared by Mike Rosenthal with Requester. The FBI background correspondence shows an explicit confidentiality statement that no part of the content is to be disseminated or reproduced without written consent of the sender. I interpret the statement as that I should not be in possession of the documents.

Please review the information I am providing you and investigate the matters of privacy breach issues within your agency. After 9+ months of me alerting you as a private citizen, that there is an issue within your agency, by my own experience, I am providing you additional information which further necessitates action of you and your agency to resolve the issues and enact compliance of applicable privacy laws. Citizens have an expectation of reasonable privacy and compliance of IPRA.

I am returning this record to the Boundary County Sheriff's Office. I would like the redacted record provided to me. I am maintaining possession of this email without the unredacted record content, for my record. (Thus the reason I am sending you the actual unredacted record content separate from this email)

This may be exempt personnel information. It is seeming informing people when Officers are on/off shift is a potential officer safety issue. This is information people can harvest to use to establish patterns of work shifts and be privy to Officer schedule information, potentially creating a safety breach for the Officer and family. I viewed this as a red flag, but unsure if it qualifies for exemption.

The statement of Mike Rosenthal allowing unredacted dispatch recordings to be provided to the recipient, airing date of birth is a contradictive statement of other statements Mr. Rosenthal has made in other public records correspondence I have reviewed.

Hello Emily,
I would appreciate your time in preparing the below public records request: This is a public records request for: The redacted version of all records I returned to Boundary County Sheriff's Office due to the records containing unredacted 9-digit social security number, unredacted driver's license numbers, unredacted month/day/year date of births, juvenile records completely unredacted with sensitive details and juvenile names exposed, unredacted juvenile names, unredacted month/day/year of juvenile dates of birth, unredacted RP home addresses, unredacted RP phone numbers. Unredacted juvenile names and complete date of birth on records requests of department of health and welfare involvement.

I previously requested to Sheriff Travis Stolley to provide me the records returned redacted. My emails have been ignored. I do not believe it is proper for me to need to send a PRR to receive a redacted replacement for responsive records I received from your agency unredacted. However, my emails are ignored and I am now submitting an official public records request to obtain them.

Andrakay,

Would you like me to provide you with the record to confirm that Sheriff Stolley receives alleged complaints via email from others and initiates action? (with no phone call to dispatch by RP), Stolley forwards the email to an agent of BCSO, then agent calls dispatch to create an event record to begin investigation into the emailed alleged complaint. No phone calls are ever made to dispatch, yet Stolley creates action for investigation.

However, for myself and my family, stolley requires a different procedure, and ignores any action into my criminal reporting. I have no fair access to the justice system of Boundary County.

My serious criminal complaints are being ignored based on retaliatory and bias action of the Sheriff.

Mind you, I have substantial evidence of every crime I allege, including self admission of Federal crimes committed on my family.

Hi Andrakay,
I have Public Records Requested the 1/28/26 PRR received by BCSO from Christopher Swan of "resolve investigations". It is confirmed the record exists, as it was transmitted to Emily Carey of BCSO as an attached file on 1/28/26 @3:31pm. Pursuant to my PRR's I should have received this as a responsive document.

I am steadily frustrated at the games BCSO is playing with me as a method of evident retaliation and bias toward me. I do not appreciate being stonewalled and treated with glaring bias by Boundary County Sheriff's Office.

Can you please investigate why BCSO is withholding this record, and the matters of bias and unfair treatment I am receiving? (or forward my grievances to the appropriate non conflict agency)?

> Idaho Code § 20-525: This statute mandates that law enforcement records concerning juveniles are privileged and shall not be disclosed to the public. Unless the specific "14-year-old/felony" exception is met, the Sheriff's Office has no legal authority to release this information.

I have no idea the date of the PRR, as I believe it may had been a responsive record provided by paper copy,but cannot confirm because I began scanning paper records and I have the record as a pdf file. Paper copies make tracking it down more difficult.

Now, I hold serious concerns, all validated upon what I have firsthand experienced under your leadership as Sheriff. My family and children remain hung out to dry, with our safety and lives compromised, while no action has been taken to investigate or lawful action to remove the threat of vulnerability to our family.There has been no accountability and transparency shown by you, as Sheriff. My distrust in you and your agency was born strictly through the treatment I have received by you and your agency. I am now angry and terrified for myself and family every day of my life. It is not a good place to be. I sincerely hope that you and your family never have to experience feeling unsafe in your own lives and home as result of being targeted, stalked and placed in danger in the middle target of dangerous publicly shared viral narratives and threats.
>
> If you will recount, on April 21, 2025, I hand delivered a 20+ page

My complaint was subsequent to Adrienne Norris' aka Boundary County Watchman's targeted public harassment and inciting of harm on my family (involving my children) online. Around this same time, 2 persons involved in this calculated effort (Misha Davis and Mallorie Evoniuk), provided you with bogus unfounded claims of me. (Which I believe was an effort to deflect the real crimes they were committing on my family and juvenile children.) You were certain to expedite the criminal claims against me to a third party (ISP) for investigation. During this timeframe, my April 2025 presented criminal complaint was never sent to ISP for investigation. I was disappointed to learn from ISP Detective Leslie Lehman in June 2025 that you did not send or address my complaint. To this date, my criminal complaint remains uninvestigated- despite me

alerting you of the harm that is being committed on my family and children for nearly 9 months. You have blatantly refused to investigate my complaint and/or forward it to another agency.

But how else was I to handle my grievances and harm being committed on my family, when the people in power who should had initiated action-showed me they did not care and blatantly refused to investigate the matter?
>
> Rather than acting ethically with accountability to a large issue
> which you inherited, your choice has been to entirely gaslight the real problem and treat me and my family indifferent to the matters I have brought to your attention. 9 months ago I consider myself as pleasant to deal with. In the course of being lied to, gaslighted, discriminated against, all the while the safety of my family remains compromised, I have probably changed my tone, as I am extremely angry as my family including children remains afflicted. I feel entirely slighted by you and your agency. Your personnel from public records and Seargent have conveyed an ill tone toward me, indifferent treatment and obvious bias, as result of my family being gossiped about for me resorting to a tort claim in attempt to address the harm and crimes inflicted on my family. I wish everyone could know the entire story with factual context. However, my husband whom is maintaining a professional working relationship, has demanded that I not bring this to the eye of the public media.

The fact is my family does not have to be in the middle of this target had you taken real action to investigate and appropriately address the matters and crimes being solicited on my identified children and family. As a human being, I wish you could truly empathize with the turmoil my family has been living for nearly 9 months. None of us have had the leisure to live a peaceful, normal life as direct result. We have no reprieve. We feel like sitting ducks in our own home, on our own land. In our small community where we are stalked, targeted and sabotaged, we could never live a normal life here again.

Once the solicited harm is viral, as it currently is, it is real. Factor in we have a neighbor who is proven to be directly responsible for perpetrating the targeted mission on our family, is stalking my family, surveills our family and knows our movements at our home, yet remains uninvestigated. We live in a perfect storm of easy accessibility for the threats of harm to be carried out.

I would like to point out as recent as November 2025, Stolley took action on a dog complaint on my family from known actors committing crimes on my family. There are no records of the claims on us reported through dispatch by said neighbor. BCSO officer Greg Reynolds himself called it in to dispatch to initiate a CAD event. I have the recording if you would like to receive it. Stolley's requirement of me only reporting through dispatch, is entirely indicative of bias. Furthermore, Stolley has slightly acknowledged the issues of crime on my family I have been reporting for 10+ months. He has sent me emails with questions about the YouTube link, yet has not opened an investigation nor conflicted the crimes for investigation. Then on the other hand, Stolley claims I have not properly reported the crimes.
Again, I do not appreciate the apparent dereliction, retaliatory bias that I and my family are receiving from the Sheriff.

Thank you for explaining this. I understand you are not responsible for initiating conflicted investigations of criminal complaints.
However, I do understand you would be involved in initiating investigation as to matters concerning the bias I am receiving from the Sheriff, and requiring my family to report crime in a different manner from what he requires of others; ignoring of serious crimes reported to Sheriff Stolley by me. I have the documentation to substantiate this.

My son has a serious matter of crime committed against him, beginning as a juvenile. This will likely affect his FAFSA eligibility for college, tax liability etc. His SSN has been fraudulently misrepresented by an LLC employer claiming him as a "partner", to which he never signed for, and as the legal guardian of a juvenile- I never signed for.

My son wishes for an immediate conflict investigation into the matter. BCSO does not need to be involved. This is a conflict of interest for BCSO, and most likely would require a Federal agency referral investigation. My son is also concerned with the manner in which Travis Stolley chooses bias in matters of our family, ignores reporting of crimes on our family (including self admitted/in writing crime).

Those individuals did not get sent through dispatch. Their claims were immediately forwarded to ISP for non conflicted investigation. Myself and family have been unable to receive that same fair treatment from Travis Stolley.
> Additionally, Malloorie Evlniuk did not get directed to dispatch when she made emailed claims(emailed to Travis Stolley) of my family's dog 3 months ago, requesting investigation and criminal charges on us. Travis Stolley immediately initiated investigation in that matter. With no record of Mallorie Evoniuk reporting to dispatch.

I can tell you from prior experience that ISP will not step in without more information from the local agency and a formal request for conflict investigation. Additionally, because Colton is no longer a juvenile I would strongly recommend that he make the report. Even if he was a juvenile at the time that it occurred, because is not at this point, it is unlikely that law enforcement/prosecutors would be able to give you information.

Marie -

I can appreciate the concern you have written. We are working as expediently as possible to correctly process all records requests. At this time, I wish I had a better answer for you other than ***MY HOPE*** is that it will be Tuesday. The person doing the review is not in until Monday, I will not be in until Tuesday. I can understand this may not be the answer you want to hear, unfortunately, this is where this request is at in the process.

I apologize for the inconvenience.

Do you have an ETA for this?

I ordinarily dont have issue with waiting beyond IPRA timelines, but this record is involving series of documented safety concerns of my family (ignored by Sheriff Travis Stolley).

I feel it is appropriate to recieve this record in a timely manner.

I had seen in records where Mike Rosenthal had drafted an authorization for the parties to sign on a record he could not get redacted, which Adrienne Norris had requested. Mike delivered the draft to the jail to ask the parties if they would sign. (They declined), but I figure if this is allowed in this manner, my son would be happy to either sign an authorization or obtain the unredacted record himself.

I do not make investigation referrals to ISP directly. The Boundary County Prosecutor's Office does not have its own investigator, and thus, all investigations are conducted by law enforcement. My office is also not set up to take criminal referrals.

I can tell you that, once a report is made by Colton, I will work with the BCSO to have it conflicted out to another agency if necessary.

An investigation into the fact there are no records in CAD for reports of me, when Travis Stolley referred claims of me for an ISP investigation (reported by Misha Davis, Adrienne Norris and Mallorie Evoniuk). Those individuals did not get sent through dispatch. Their claims were immediately forwarded to ISP for non conflicted investigation. Myself and family have been unable to receive that same fair treatment from Travis Stolley.
Additionally, Malloorie Evlniuk did not get directed to dispatch when she made emailed claims(emailed to Travis Stolley) of my family's dog 3 months ago, requesting investigation and criminal charges on us. Travis Stolley immediately initiated investigation in that matter. With no record of Mallorie Evoniuk reporting to dispatch.

My family's reporting of criminal matters are being handled much differently. (ignored). This in itself needs investigating by the proper agency. I am aware this would be initiated by your office.

Good morning,

This would be the appropriate procedure. BCSO needs to take the initial report as the agency with jurisdiction. I can tell you from prior experience that ISP will not step in without more information from the local agency and a formal request for conflict investigation. Additionally, because Colton is no longer a juvenile I would strongly recommend that he make the report.
Even if he was a juvenile at the time that it occurred, because is not at this point, it is unlikely that law enforcement/prosecutors would be able to give you information.

You may already know this, but I wanted to show you something in case you didnt see it. There is an email tracking pixel on page 2 of the last email sent.

In my research, spy pixels and email tracking pixels are embedded and can potentially be used as a method to exploit privacy vulnerabilities of a device and network. I just wanted to share this, as I saw it and thought I should let you know.

My criminal complaints need to be forwarded to a non conflicted agency for investigation.

I am being obstructed by the Sheriff. I am now requesting your department to handle this matter appropriately, so that my family can receive fair access to the justice system.

Subject: Return of 94 page unredacted records

Sheriff Stolley,

I am returning a 94 page pdf file which I received from Boundary County Sheriff's Office records custodian Emily Carey, pursuant to a public records request I submitted. The separately emailed provided responsive record was included. The responsive record appears to contain 18 noted unredactions of personal information,including juvenile identifying information,(1)- 9 DIGIT SOCIAL SECURITY NUMBER, and additional likely other issues.
The content also shows a contradictive statement of Mike Rosenthal to information he has provided in other records correspondence, along with a concern of potential officer safety information voluntarily shared by Mike Rosenthal with Requester. The FBI background correspondence shows an explicit confidentiality statement that no part of the content is to be disseminated or reproduced without written consent of the sender. I interpret the statement as that I should not be in possession of the documents.

Please review the information I am providing you and investigate the matters of privacy breach issues within your agency. After 9+ months of me alerting you as a private citizen, that there is an issue within your agency, by my own experience, I am providing you additional information which further necessitates action of you and your agency to resolve the issues and enact compliance of applicable privacy laws. Citizens have an expectation of reasonable privacy and compliance of IPRA.

I am returning this record to the Boundary County Sheriff's Office. I would like the redacted record provided to me. I am maintaining possession of this email without the unredacted record content, for my record. (Thus the reason I am sending you the actual unredacted record content separate from this
email)

This may be exempt personnel information. It is seeming informing people when Officers are on/off shift is a potential officer safety issue. This is information people can harvest to use to establish patterns of work shifts and be privy to Officer schedule information, potentially creating a safety breach for the Officer and family. I viewed this as a red flag, but unsure if it qualifies for exemption.

The statement of Mike Rosenthal allowing unredacted dispatch recordings to be provided to the recipient, airing date of birth is a contradictive statement of other statements Mr. Rosenthal has made in other public records correspondence I have reviewed.

Subject: Records releases

Sheriff Stolley,

I am writing in concern of public records requests received by your agency pertaining to my family and children by non party requesters. I have documented my concerns with your agency, and the manner which the unredacted records previously released are used to harm my family in a calculated manner. An invasion of our personal privacy has and continues to occur, along with our safety jeopardized. The criminal matters which I have reported to you remain uninvestigated and/or conflicted for investigation.
I fully expect your agency to adhere to Idaho Code 74-124 (1)(c);(f) exemptions involving my juvenile children and family's records. I have evidenced an invasion of personal privacy, stalking, harassment and endangerment to our safety. My family's personal and juvenile children matters are not subject to the First Amendment protections by the perps using unredacted and identifying information to dox and solicit danger on my children and family.

I have provided your office with 2 emails, on 1/22/26 and 1/26/26, providing you with substantial documentation of the persistent unredacted records of juveniles and personal information released by your agency. I realize you have now acknowledged the large public records unredacted issue of your agency, and I sincerely appreciate that acknowledgment.
I would like to ask that any records of my family and children you may be consider for release to non parties, be withheld from release until your agency personnel has completed the appropriate training for compliance of privacy laws. My family and children's safety cannot continue to be jeopardized, with unredacted records provided to assist the perpetrators in identifying my family and children, weaponized to carry out the harm virally on the internet.

Thank you,
Marie Garrett

Hello Ms. Pluid,

I would like to ask if Mr. Swan has confirmed if the dropbox link has been accessed and/or downloaded by his client? I realize dropbox links can be accessed, even when the link does not "populate".

Since the link did contain protected juvenile information, is it possible for a formal legal notice to be sent on behalf of the agency, demanding return of the unredacted record by Mr. Swan's client? It has been my concern that an anonymous person is gaining access of personal information of my family and juveniles to use in another nefarious manner, through a third party.

If you do receive another email from Mr. Swan, would you mind scanning and emailing rather than forwarding the email? I have learned more about tracking links, spyware, spy pixels, etc and do not wish to further compromise our privacy.

Thank you

Sheriff Stolley,

I would like to draw your attention to some issues I have discovered, which do require investigation. I am requesting a reply from you to update me in the manner of which you will be addressing my concerns.
.

- Pages 3 and 4 of the attached pdf file pertaining to case number 2025-00737 show redactions of a name of a person who is supposedly a witness in the matter (Steve Harris). **Why would Steve Harris' name be redacted 5 different times in this report which he was named as an alleged witness?**
- The video of deer running in front of a green gate does not show dogs chasing the running deer. (file name: 2025.11.10 - Garrett Dogs Chasing Deer and Harrassing JE) Dogs are not shown to be chasing the deer in the video, as claimed by Mallorie Evoniuk's statement. I see deer running through our land on a daily basis, with nothing chasing them. False reporting is an issue.
- On page 4 of the attached pdf file, Mallorie Evoniuk emailed you and provided you with screenshots of my comment on the Boundary County Sheriff's Office post. In attempt to use my First Amendment protected speech against me, it is evident Mallorie Evoniuk was using her surveillance of me as an attempt to appeal to you. Said screenshot provided by Ms. Evoniuk herself (attached to this email- IMG_5862.jpg and IMG_5863.jpg) reflects Mallorie Evoniuk surveilled and documented my comment 42 minutes after it was posted. **I find it suspicious that within 42 minutes, Ms. Evoniuk had the knowledge of exact location where I had made a comment on social media.** This is seemingly indicative of network interception or stalking and surveilling of me. Both are of concern and warrant an investigation by an appropriate and non conflicted agency.
- Page 4 of the attached pdf file shows Mallorie Evoniuk's statement "The boy's screams were so loud that they triggered our trail camera to record from several acres away"... This statement is indicative of 2 issues: Likely false reporting by Mallorie Evoniuk and admission of her criminal activity. I find it suspecting that, if in fact this was truth- why was this not provided as evidence to your agency when she made the call to law enforcement on 7/5/24? **This statement provides a more serious concern- a violation of Idaho's wiretapping and intercepting laws. Our family has a reasonable expectation of privacy on our own land. This self admission of crime by Mallorie Evoniuk warrants immediate investigation by an appropriate and non conflicted agency.**

I would appreciate an appropriate action to the concerns I have outlined above. I appreciate your time.

Sincerely,
Marie Garrett

Thank you for acknowledging and addressing this issue. I truly value you handling this in that manner more than you know.

Considering my family and children are targets of the individual who employed the requester and recipient of this record. Our family is being stalked, harassed and solicited danger upon. They have a proven track record of dissemination of unauthorized content of my children and family.

Is it possible for you to immediately issue a Notice of unauthorized disclosure and demand for destruction (or any other legal notice applicable) to Resolve Investigations and/or Mallorie and Josh Evoniuk?

I would appreciate all precautions taken to avoid a repeat of the last calculated harm, targeting my family and children.

Thank you.

Attorney Andrakay Pluid,

Resolve Investigations (employed by the Evoniuk's) was provided responsive records of my juvenile children and family, which contained a dropbox link, containing protected and identifying information of juveniles.

The Dropbox link in the responsive documents to Resolve Investigations shows to be sent completely unredacted.

What is the recourse for this? My children and I do not authorize a non privy person to have access to the protected information. Will you be issuing a request for return of record, or taking the lawful measures to claw back the record?

Hello,

I would like to update you on the viral public content which appears to be courtesy of Adrienne Norris aka Boundary County Watchman. In 2 weeks, one viral platform has reached 212k+ views and 3.3k+ comments, soliciting threats not only on Law enforcement officers and the department, but our families and home address. This is just ONE of the viral reproductions of content, courtesy of Adrienne Norris and her viral YouTube platform, "Boundary County Watchman"

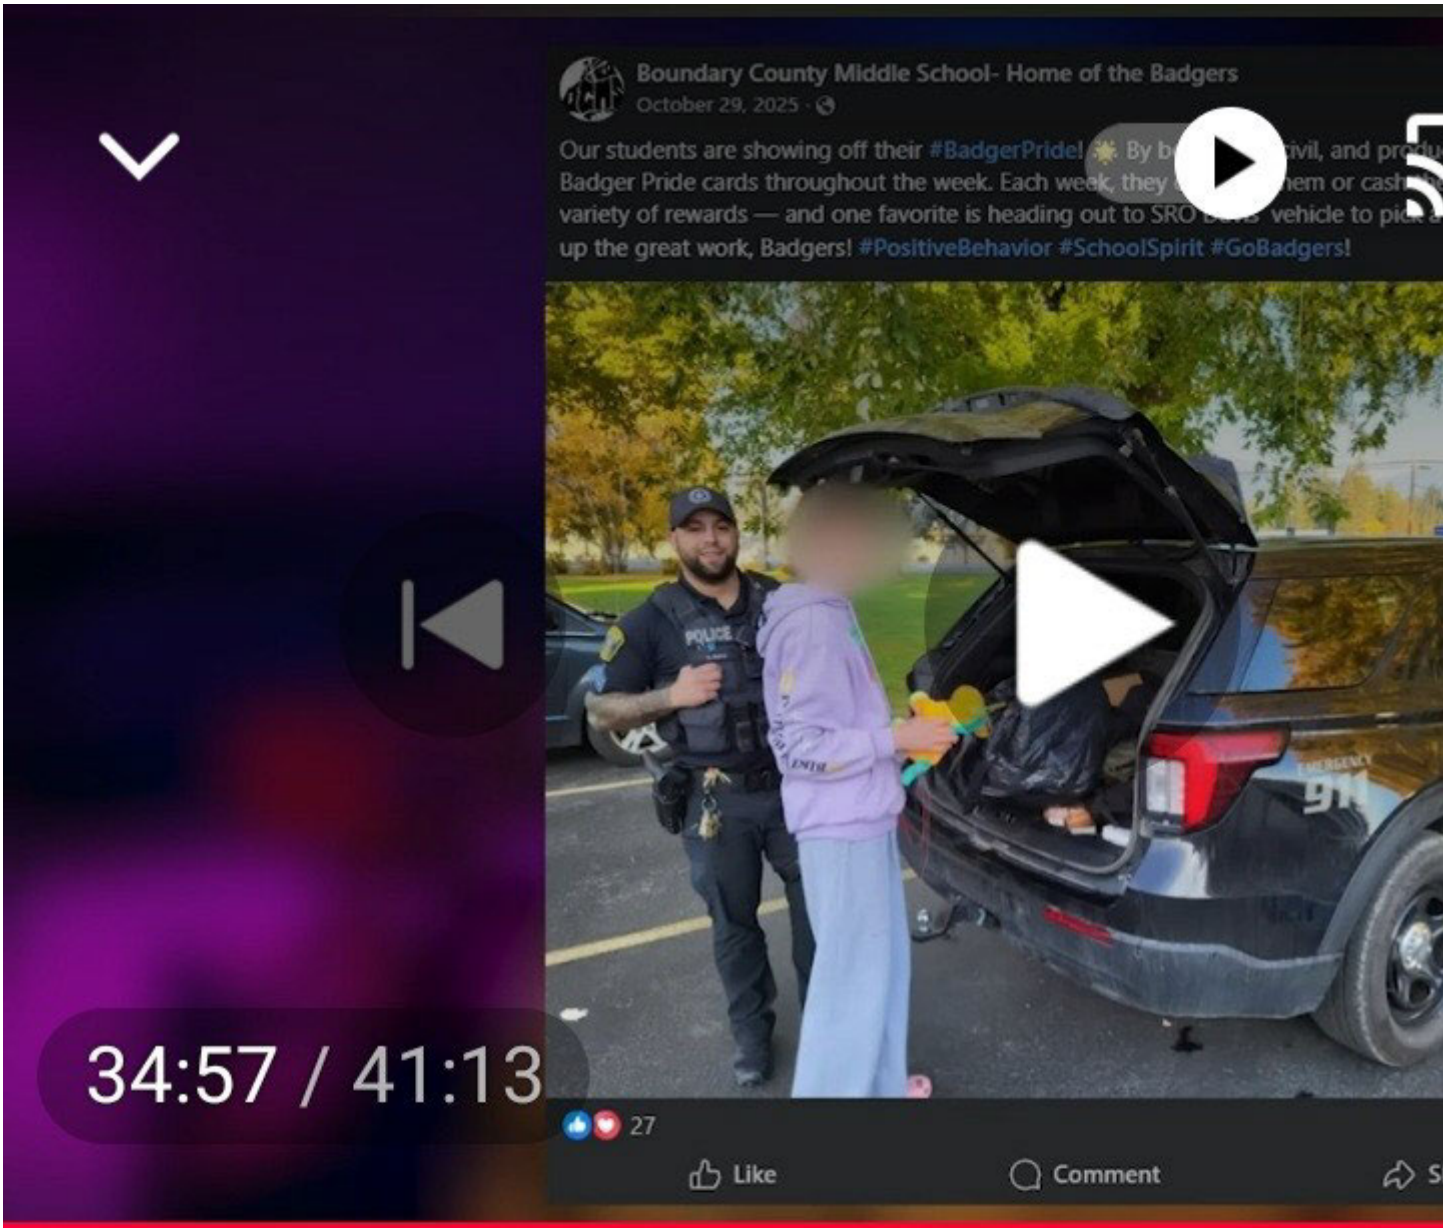

I would like to remind that this is the content of which my family's personal, unredacted and identifying information has been mingled and tagged in
Adrienne Norris' viral Bonners Ferry Police Department video chapters.

It is self admitted by Mallorie Evoniuk she disseminated Boundary County Sheriff's Office records containing my family's (children) personal and identifying information, of which she was aware was unredacted, and contained personal information of my children. Ms. Evoniuk claimed she disseminated the content to Adrienne Norris to protect herself...Considering Adrienne Norris and her Boundary County Watchman content is not security, law enforcement officer or legal authority, The intent to harm my family and solicit harm to my family perpetrated by Ms. Evoniuk is indisputable.

The moment of truth reveals Ms. Evoniuk was actually represented by attorney(s) at the exact date of the incident and the time of receipt of records. Ms. Evoniuk's' attorney staff is documented as picking up the disc content from Boundary County Sheriff's Office. This is just one more indicator for the obvious ill intent of Ms. Evoniuk in using the records to harm my family and children, soliciting us as a target to place us in danger, through targeting, identifying my juvenile children stalking and harassment and involving others to assist the mission.

I provide this information to you once again, as measure of reminder that IPRA exemptions must be applied prior to any records release pertaining to my family and children. You have been provided substantial evidence that Boundary County records released concerning my family and children are being used to harass, identify and endanger my family's lives and safety (including law enforcement husband). IPRA 74-124 (1)(c);(f) exemptions are warranted on any public records request involving my juvenile children received by the Boundary County Sheriff's Office and Bonners ferry Police Department. The involved parties using my family's personal information to target, harass, identify stalk, harass and solicit danger to my family must be stopped. Including when said actors employ third parties to assist in carrying out the agenda.

Sincerely,
Marie Garrett

Subject: Public records violations and issues within your agency

Sheriff Stolley,

As a private citizen, I find it necessary to bring your attention to several issues I have discovered and verified with your public records department. I am greatly concerned for many reasons, primarily due to the harmful experiences my own family has endured at the hands of Boundary County Sheriff's Office.
Several months ago, I requested and detailed necessity for an audit into your public records department. This was subsequent to my family's own records released by your agency, in violation of IPRA laws. Violations of your agency have created a compromised life and severe harm on my children and family as subsequent effect. To date, nobody has listened. I have been gaslighted, ignored and treated indifferent by yourself and employees of the Boundary County Sheriff's Office as result of me being excessively vocal in communicating to officials of Boundary County regarding the serious issues of the Boundary County Sheriff's Office that I am aware of. There has been no action of transparency and accountability to date.

Due to no transparency and unaccountability of the Boundary County Sheriff's Office and severe attempts of sweeping known issues under the rug, I have been contemplating whether me contacting known citizens affected as a private citizen would be the best course of action to shed light on impactful real issues that adversely affect citizens' lives and juvenile children. Citizens should be aware when their right to privacy has been breached, when public records requests have been inappropriately handled; when identifying and protected information has been released entirely unredacted; when citizens have submitted PRRs for records and told the records do not exist, yet I have the records; along with numerous other issues I have confirmed. When your employees of the Boundary County Sheriff's office are unable to maintain lawful compliance in their duties, it creates serious resulting repercussions for Citizens.

At this point, it is unequivocal your records department has serious issues which would require a large scale third party professional audit to determine the full scope of issues and breaches that have occurred and continue to occur within your agency. Through confirmed findings,a blanket claim of good faith and qualified immunity can be refuted with supporting evidence.
Verified lying employees of the Boundary County Sheriff's Office cannot be defended in good faith and qualified immunity. When Boundary County Sheriff employees' lies are proven as lies, and remain uninvestigated, a larger disaster is inevitable.

As a private citizen, I have barely scratched the surface of the serious issues of your agency which I hold supporting evidence. In fact, You may not believe it, but I am well qualified in professional matters unbeknownst to you. I have not always spent my life as a stay at home mom, drafting emails to my Sheriff's office, working toward attempt to right the wrongs of targeted wrongdoings and solicited harm on my family and myself. I would much rather be partaking in activities I enjoy. However, when there is no feeling of peace and safety due to uninvestigated matters, targeting of my family,children and home being a target, I cannot consciously turn a blind eye and not dig into the real issues of my Sheriff's office which led to this resulting impact to my family. I also continue to not appreciate the denied right to lawful justice by you and your agency, while my own family is stalked, harassed, endangered and harm is solicited on us, with the perpetrators remaining uninvestigated, likely due to reason that an investigation would substantiate all that I have been alerting your agency to for 9+ months. The conflict of interest in the matter is glaringly apparent.

Below is a brief synopsis of the discoveries I have concluded as a private concerned citizen, scratching the surface of issues, without thorough cross examination of all content:
* Confirmed evidence your records staff has blatantly lied and likely deleted records subject to Idaho State records retention policy.

* I have discovered citizens are not being provided the records they seek pursuant to a PRR. Citizens are informed by your records department that records of PRRs are not located or do not exist, however I have the evidence that the records do, in fact exist. I have records that prove PRR was completed and I have the responsive records to substantiate. Your records custodian is falsely advising citizens (other than myself) that records do not exist, when they do, and are in the scope of the retention timeframe.
* I am locating extensive missing records not provided pursuant to a PRR. I can verify this through other responsive records received in different PRRs where records overlap.
*Your records department continues to have an extensive issue with not redacting exempt personal and identifying information subject to IPRA laws. Including juvenile information.
* Your records department has been unable to provide information pursuant to a PRR as to the records retention policies in use by Boundary County Sheriff's Office.
*Your records department has stated records do not exist due to the records retention period lapse, yet records department is unable to provide the records retention policy in use by Boundary County Sheriff's Office as requested pursuant to a PRR. Contradiction.
* Your records department has provided responsive records with apparent omissions and alterations to responsive records. When I inform of the facts of omission, as far to detail that I have evidence to support proof of omission of responsive records, the facts of omitted records remain vehemently denied.
* You have likely employee(s) whom are breaching Non disclosure agreements and providing citizen(s) with confidential information to assist citizens out the back door with their public records requests. I have recent evidence of this activity and can pin down the likely culprit employee in a particular scenario.

I am cc'ing Attorneys Bill Wilson and Andrakay Pluid to this email, as I understand they are authority of overseeing compliance of Boundary County Sheriff's Office public records matters.

Sincerely,
Marie Garrett

Thank you for forwarding me an email from Steve Harris to Travis Stolley. May I ask why this was sent to me as an email forward, unlike other records you provide? Furthermore, why was this email not included in my 11/20/25 PRR which states:

"This is a public records request for:
Any/all written records; audio/visual records, including but not limited to 911 dispatch call; bodycam/dashcam recordings, phonecall recordings from case 25-00737"

Also, I would like to ask where the records are containing killed chickens (plural). The records I received pursuant to my 11/20/25 PRR shows chicken (singular). Perhaps there is false reporting which deserves attention.

Also, why is it that Sheriff Stolley receives reporting via email when it pertains to my family, yet does not "allow" my reporting in the same manner? This is obviously rather discriminatory.

Dear Marie Garrett

We are in receipt of your public records request for: Any/all written records; audio/visual records, including but not limited to 911 dispatch call; bodycam/dashcam recordings, phonecall recordings from case 25-00737

Please see the below forwarded email and the attached photo's. The flash drive you picked up on 12/12 contained all of the body cam footage which was all of the phone calls with reporting parties as well as everything else that this case pertains to. Reporting was done via email, therefor there were no 911 dispatch calls that were made. You also have been provided the information report that was completed by Sergeant Reynolds.

Attached are the records we have located regarding your request. Please note that under Idaho Code 74-104 (1), contact information has been redacted.

In the event you have any questions or concerns regarding our response to your request, please feel to contact me directly. If our agency is unable to address or resolve your concerns, you may seek redress in district court within 180 days of this mailing as set forth in Idaho Code §74-115. Also, per Idaho Code §74-103, your request was forwarded to our agency civil counsel for review.

Good afternoon Sheriff Stolley, I am writing you today to inform you of a couple of dogs that have been on the loose up here by Smith Lake for the past week. I have attached photos for your reference and identification. On November 7th they were on my property just passing through. See pictures. On November 10th they were chasing a doe and a fawn across the meadow on the North end of the lake, across my property. See page 100 of the Big Game Synopsis, no dog shall pursue, or harass any big game animal. A neighbor notified me that the same dogs had killed their chickens on November 11. There is video and pictures of that as well.

It has come to my attention that these dogs belong to the Garrets on Texas Lane. I'm asking you to please investigate and hold the responsible party(s) accountable so these illegal activities cease. Thank you for your attention to this matter.

Subject: FORMAL NOTICE

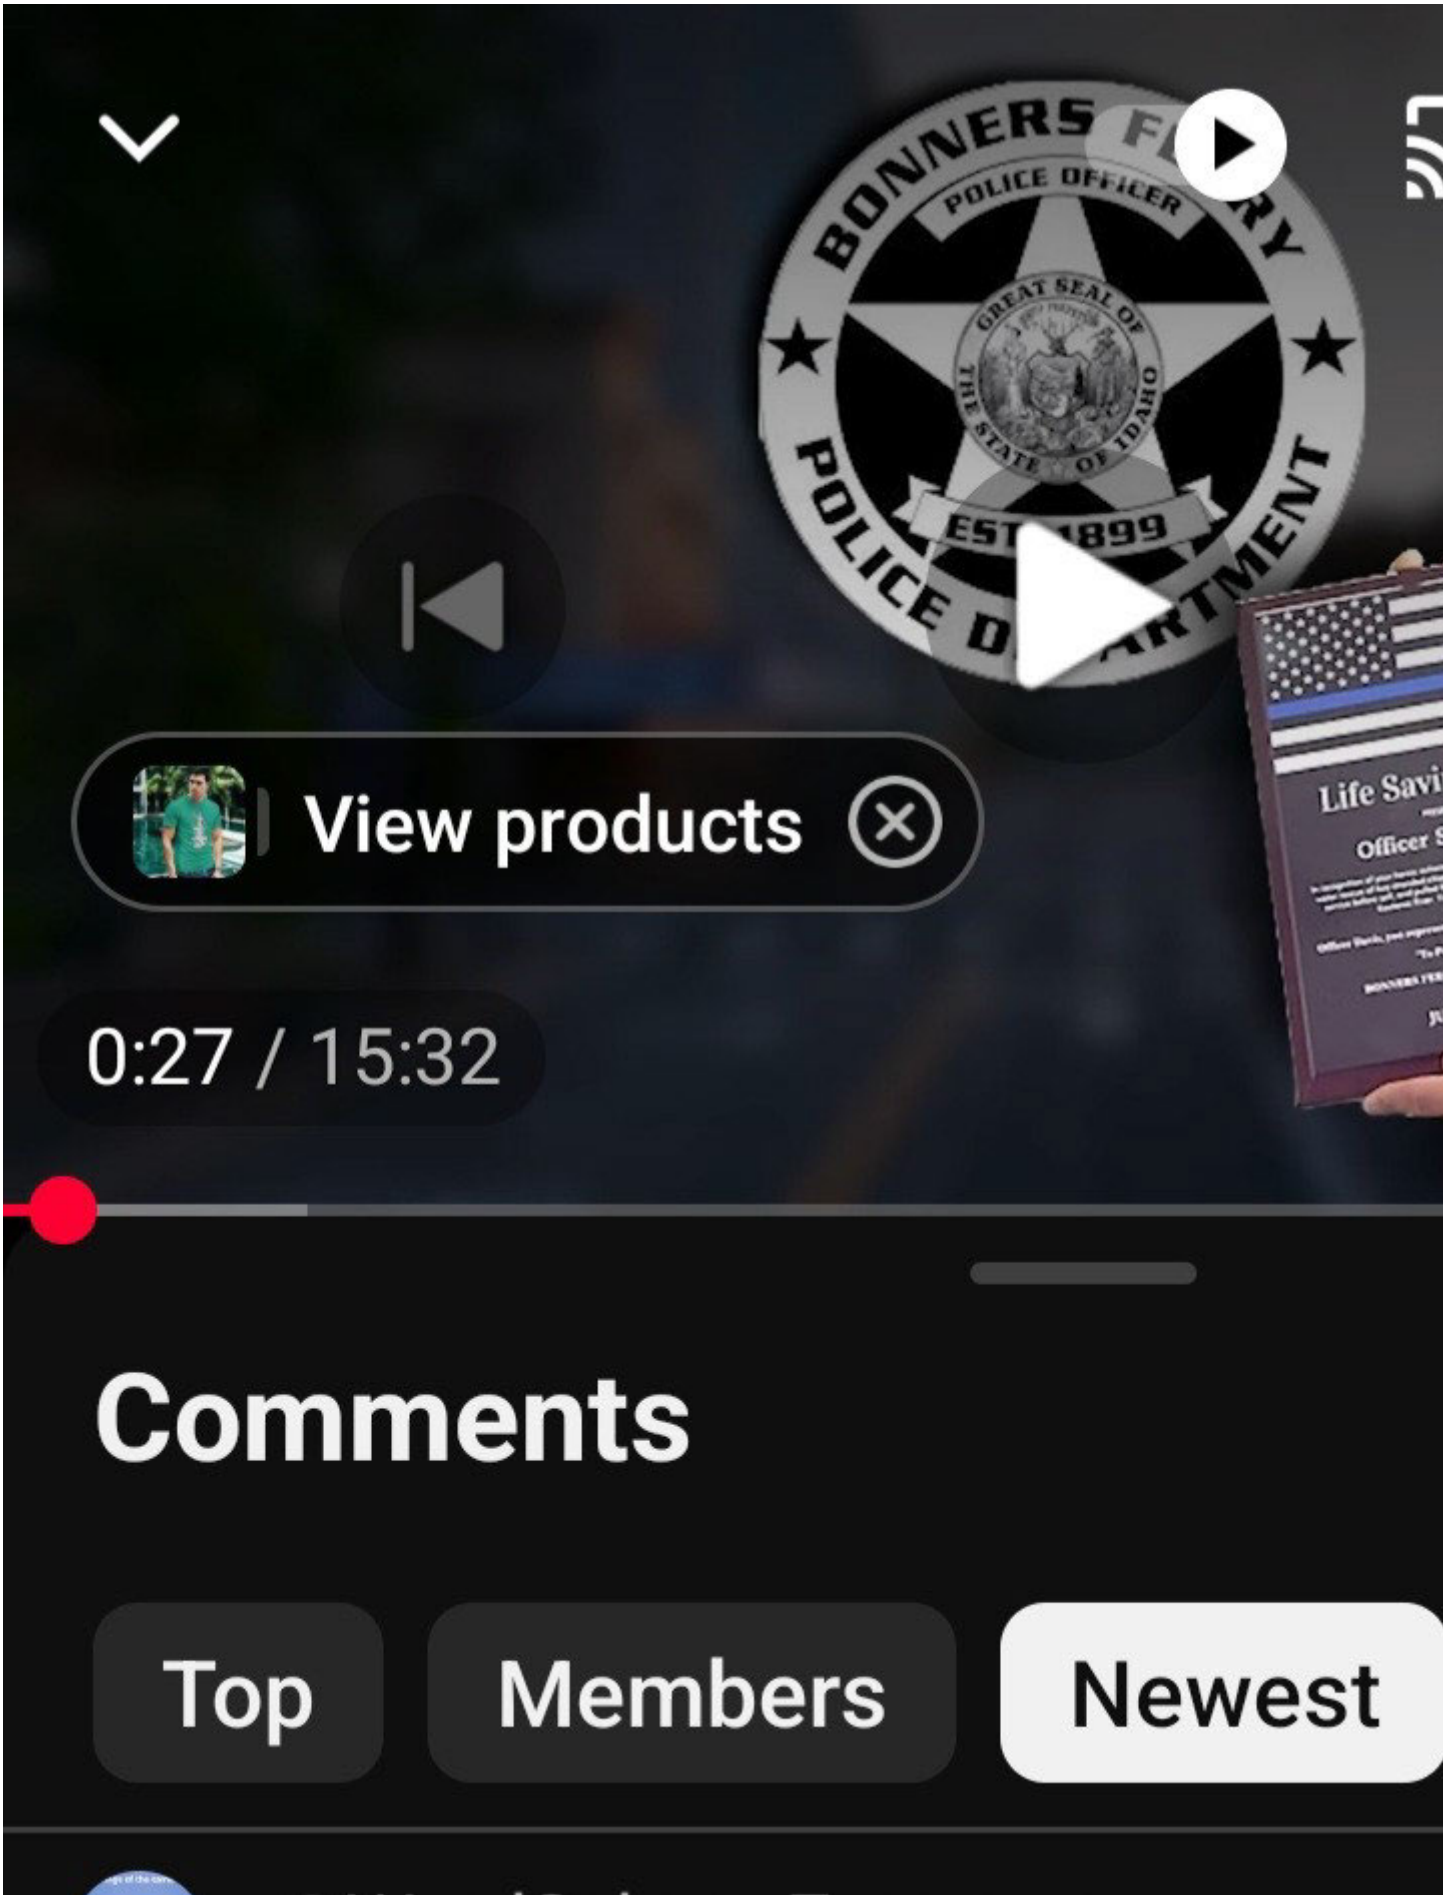

Attorney Andrakay Pluid, Attorney Bill Wilson, Sheriff Travis Stolley, public records custodian Emily Carey,

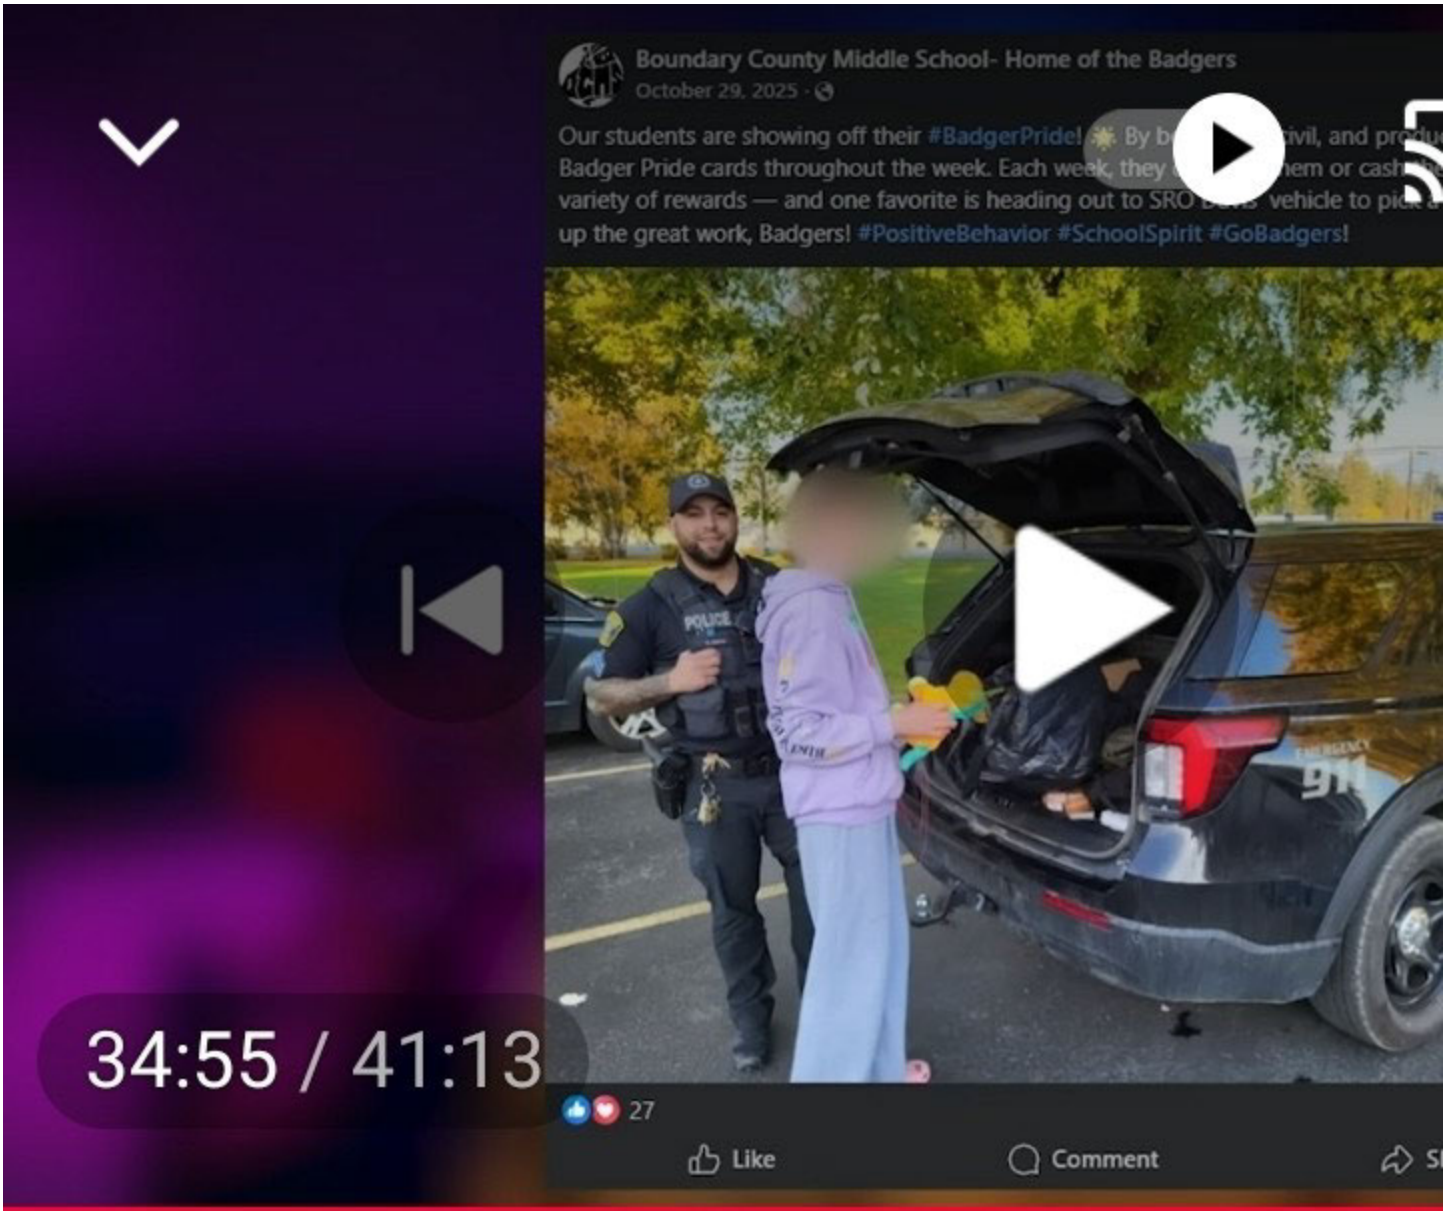

I have provided substantial evidence over the course of 8+months of my family including children being stalked/harassed and endangered. No investigation has been done. Investigation has been refused, likely due to retaliation and my tort claims filed in June 2025, November 2025 as result of the release of 1hr:05mins of my familys protected and identifying information being entirely released to the known perpetrators by Boundary County Sheriff's Office. Unfortunately, that privacy breach created harm for my family and children, as it is was disseminated by Mallorie Evoniuk to Adrienne Norris aka Boundary County Watchman, and is now viral, mixed in with other viral content.

This is formal notice that any release of records pertaining to my family, children, law enforcement husband and our home address is continued harassment,stalking and identifying our children, it is endangering to our entire family including law enforcement husband. IPRA PRIVACY EXEMPTIONS MUST BE APPLIED.

As result of the last unwarranted invasion of personal privacy, unredacted records release, our family records were disseminated in a calculated manner, to endanger my family, plastered online, placing and tagging my family in the middle of the viral millions of views, death threat and violent target of Bonners Ferry Police Department. Our personal lives are endangered, children, families and homes are a target. Exemptions for confidentiality must apply to any records release of my children and family.

Subject: new viral content posted 1/7/26, mingled with the content that identifies and endangers my family

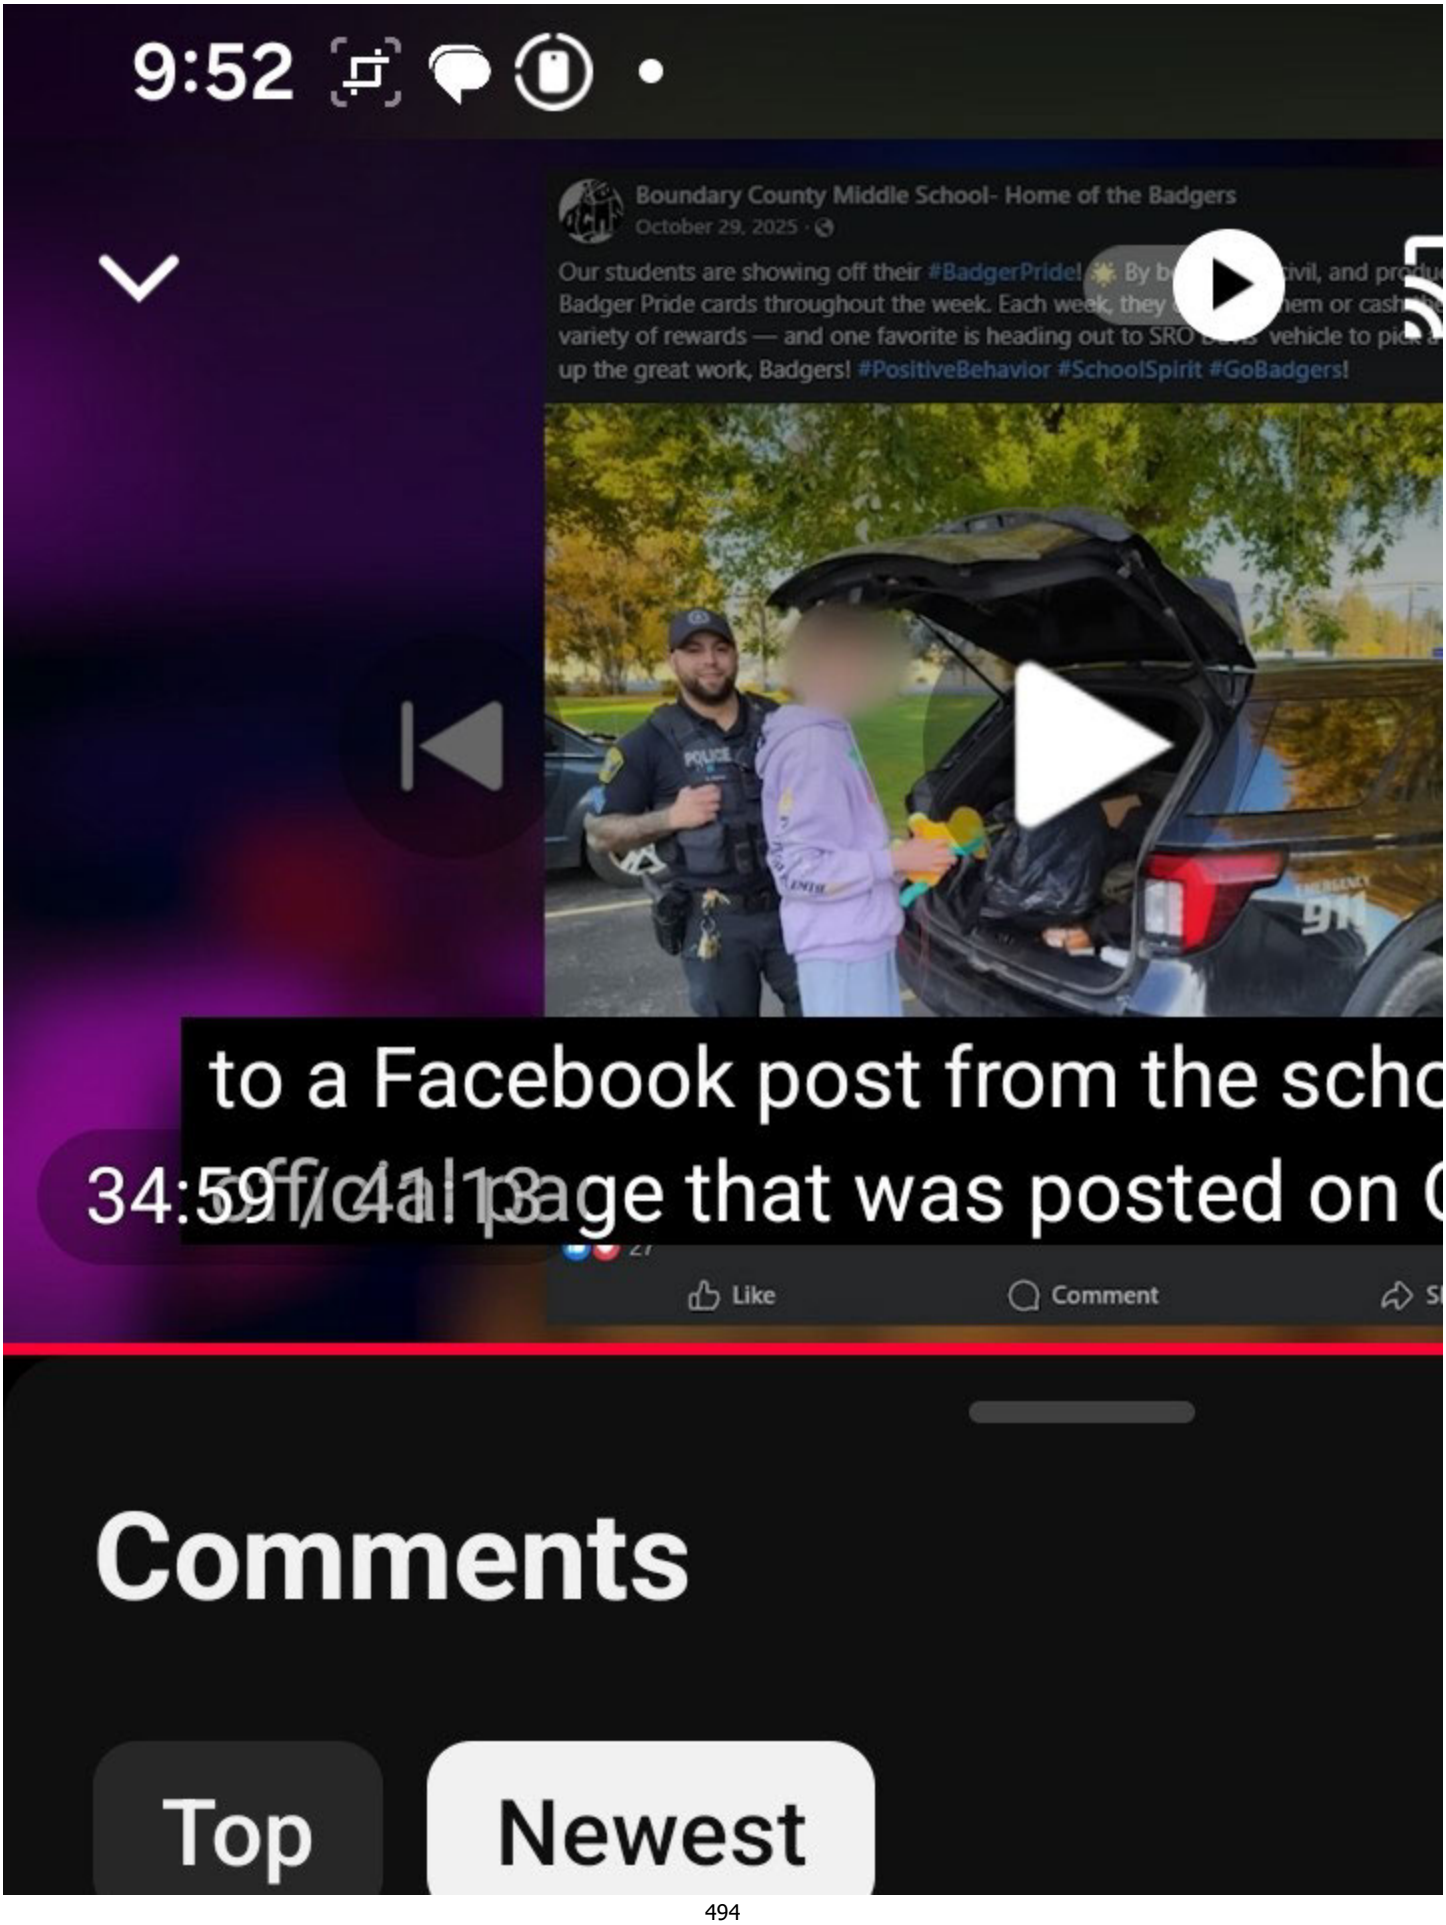

Today I applied for the ACP program with SOS. I was denied, because there has been a refusal of investigation into the stalking/harassment and endangerment my family and children are experiencing.
Meanwhile, my family is entirely hung out to dry, with our personal identifying information viral, courtesy of the records that were disseminated by Mallorie Evoniuk to Adrienne Norris. Mallorie Evoniuk perpetrated and incited this deliberate and calculated endangerment on my family. My family is not safe.
I have spent the past few days documenting the amount of threats stemming from the public viral content that mingles identification of my family in with the target. To date, I have located thousands of threats ranging from death threats on officers, our families, social media accounts and exposure of our home addresses. There is a Youtube platform "@johnlang6593 with 155k+ subscribers. A video was posted 1/7/26, regarding Scott Davis and has resulted in 129k+ views and 2.3k+ comments as of this email, Since 1/7/26.
This is out of control. The people who continue to public records request information of my family and children have a deathwish on us. Something has to be done before it is too late. My family cannot continue to be hung out to dry by Boundary County and the identifying content that was released of my children and family. The viral content that is feeding all of this is Tagged with my family's identifying information in the middle of all of this
Please do not jeopardize my family's safety and lives any further via records requests involving non criminal personal matters of my children and family.

I received an undeliverable message on my email that contained screenshot attachments. I have screen recorded the attachments to the email for sake of ability to send. If you would like me to send the actual screenshots in separate emails. Please let me know.

Boundary County Attorneys Bill Wilson and Andrakay Pluid,

Below is a snap shot of more viral content in which I have located on another YouTube platform named "lackluster". This particular public platform has 1.47 million+ subscribers. The content of just one video reproduced, courtesy of Adrienne Norris aka Boundary County Watchman is currently at
284k+ views, with 4.5k+ comments. The climate of comments include death
threats on law enforcement, and extremely alarming content directed at all LEO, our families, our homes, with particular focus on my husband's
department: Bonners Ferry Police Department. Threats and violent comments have been continuing and are as recent as 2 days ago. The YouTube platform advertises and links access to Adrienne Norris' Boundary County Watchman's YouTube channel and Facebook.

The unredacted records of my family, including identifying information of my children and family is directly tagged on Boundary County Watchman YouTube "Bonners Ferry Police Department " video file, mingled with the content. I have located concerning comments on the video with the unredacted content of my family, titled "Under fire for speaking out"
It cannot be disregarded that our entire family has been stalked/harassed and endangered through the use of public records to accomplish the harm and endangerment of my entire family. Public records regarding incidents of my juvenile children serve no public interest. The intent of the use of records of my family has been to identify, harass and endanger my children and family of law enforcement.

We must not forget that my neighbor, Mallorie Evoniuk is directly responsible for perpetrating and disseminating the unauthorized content of public records that has placed my family in a safety compromised situation.
The same people involved in endangering my family are now using an employed agent to obtain additional personal information of my children and family and law enforcement husband. As I have alerted many times, my family is being stalked/harassed and endangered. I remain concerned that Sheriff Travis Stolley has refused to investigate the matters and refuses to forward it to a third party agency for investigation.

I am providing you this further information, as it applies to the necessity of adhering to Idaho Code pertaining to privacy exemptions, regarding invasion of personal privacy of my children, my family and law enforcement husband in personal, non criminal matters.

I believe an additional occurrence of the harm we are already experiencing, can easily be avoided with application of Idaho law.

I am sending 2 additional screen recordings in a separate email, as the files are too large to add to this email.

Thank you for your time,
Marie Garrett

Boundary County Attorneys Andrakay Pluid and Bill Wilson, Boundary County Sheriff's Office Public Records Custodian Emily Carey:

I am writing in regard to records requests of my family received by Boundary County Sheriff's Office, pertaining to my juvenile children and family. As you are aware, and per the substantiating evidence I have previously provided, there are a group of people whom have been working in concert to publicly stalk/harass/endanger/permanently harm my family. Said individuals have used previous responsive public records as a method to accomplish the above mentioned, along with other methods to carry out their harassment/stalking/endangerment of my family and children.

There is enough substantial evidence to reveal the juvenile records released by Boundary County Sheriff's Office have been used to harass and identify my juvenile children and endanger the life and physical safety of my family whom is law enforcement. Boundary County Sheriff Travis Stolley has been made fully aware of important details concerning our family being victims of stalking/harassment/endangerment by these very same people, yet has chosen willful refusal to investigate the matters that I have brought to his attention.

I am aware Christopher Swan of Resolve Investigations has requested extensive records pertaining to my family including juvenile children. Said firm has been employed to acquire records pertaining to my juvenile child on behalf of the very same individuals who have been invading my family's privacy and using the content to publicly stalk/ harass, identify a juvenile and endanger my family. The actors involved have mingled the public records content online with content which has incited death threats and documented harm for law enforcement and our families. It is documented that my family and children are being stalked/harassed and endangered. Should Boundary County permit said records released to the individuals and their employed person(s), Boundary County will be further liable as a permitted direct result of continued harm to my family and children.

Release of records pertaining to a non criminal matter, involving a juvenile serves no public interest. Considering the harassment/identifying of a juvenile/endangerment of my family and juvenile children, already evidenced through an unwarranted invasion of personal privacy, the records should be exempt pursuant to Idaho Law.

I am once again advising that IPRA 74-124 (1)(c);(f) exemptions are warranted on any public records request involving my juvenile children received by the Boundary County Sheriff's Office and Bonners Ferry Police Department.

Idaho Code 74-101(17) (a) "Unwarranted invasion of personal privacy" means: (i) (ii) Disclosure of information used to identify, locate, or harass a juvenile, a victim of an alleged crime of mass violence or domestic violence, or a victim of physical or sexual abuse; or Disclosure where release of information is likely to violate legitimate and substantial privacy interests of the person identified when such interests are weighed against general public information.

Idaho Code 74-124. Exemptions from disclosure – Confidentiality. (1) Notwithstanding any statute or rule of court to the contrary, nothing in this chapter nor chapter 10, title 59, Idaho Code, shall be construed to require disclosure of investigatory records compiled for law enforcement purposes by a law enforcement agency, but such exemption from disclosure applies only to the extent that the production of such records would: (a) Interfere with enforcement proceedings; (b) Deprive a person of a right to a fair trial or an impartial adjudication; (c) Constitute an unwarranted invasion of personal privacy; (d) Disclose the identity

of a confidential source and, in the case of a record compiled by a criminal law enforcement agency in the course of a criminal investigation, confidential information furnished only by the confidential source; (e) (f) personnel; or Disclose investigative techniques and procedures; Endanger the life or physical safety of law enforcement

Attorney Andrakay Pluid and Attorney Bill Wilson,

I am writing in regard to records requested of my family, pertaining to my juvenile children. As you are aware, there is a group of people who have been working in concert to publicly stalk/harass/permanently harm my family through the use of unauthorized public records. There is enough substantial evidence to reveal the juvenile records previously released by Boundary County Sheriff's Office have been used to harass and identify my juvenile children and endanger the life and physical safety of my family whom is law enforcement. Boundary County Sheriff Travis Stolley has been made fully aware of important details involving our family being victims of stalking/harassment/endangerment, yet has chosen willful refusal to investigate the matters.

I am aware of the PI firm submitting a records request to the Bonners Ferry Police Department and completed by Kathy Walk. Said firm has likely been employed to acquire records pertaining to my juvenile child on behalf of the very same individuals who have been invading my family's privacy and using the content to publicly stalk/ harass, identify a juvenile and endanger my family, through mingling and tagging the content online with content which has incited death threats and harm for law enforcement and our families. Release of records pertaining to a non criminal matter, involving a juvenile serves no public interest. Considering the harassment/identifying of a juvenile/endangerment of my family, already experienced through an unwarranted invasion of personal privacy, the records should be exempt.

I am once again advising that IPRA 74-124 (1)(c);(f) exemptions are warranted on any public records request involving my juvenile children received by the Boundary County Sheriff's Office and Bonners ferry Police Department.
