Permit # 24025
For Official Use Only

BOUNDARY COUNTY ROAD ACCESS APPLICATION

Please print and complete the following:

Applicant/Permittee: Jerome J Neumayer + Kathleen M. Neumayer

Address: [redacted] Bonners Ferry

Phone: [redacted]

Email: [redacted]

County road: Katka Rd.

Parcel ID/short legal:

RP00270002002OA

Approach type:

Residential driveway [X] Roadway Approach [ ] Commercial/Farm Approach [ ]

OR

Approach Use:

Bare Land [ ] RV/Recreational [ ] Utility Only [ ] Barn/Shop [ ] Other _____

ATTACH sketch of proposed approach and vicinity map per Road Standards Ordinance 2020-2, Section 3.1.A. See Section 3.1.A for required information.

General Provisions:

- *Permittee understands that this permit is issued for the sole purpose of compliance with Boundary County Road Standards Ordinance No. 2020-2, Section 3.1 through 3.5 "Approach Permits and Standards.*
- **Any changes in use from the application above shall require a new permit.**
- *Permittee further understands that this permit in no way relieves their obligation to comply with the applicable laws of the State of Idaho related to access construction, including sediment and erosion control.*
- **Permittee must notify Boundary County Road & Bridge one week prior to construction.**
- **Permittee must notify Boundary County Road & Bridge IMMEDIATELY upon completion of the construction for Post-Inspection.**
- **Permittee is responsible for obtaining all utility locates prior to any excavation per Idaho Code** Title 55, Chapter 22.

RECEIVED
MAY 07 2024
BY: JB

- Permittee is responsible to ensure all traffic control and signage conforms to the latest standards set in the Manual on Uniform Traffic Control Devices during construction.
- If at anytime applicant presents a request for a permit to Planning and Zoning, it is the responsibility of the Permittee to provide any easement documentation involved in this approach.
- Applicant will need to provide easment documents to Road & Bridge if the parcel does not front a County owned right of way or a County maintained road.
- This permit covers operations in the county right of way only, and the Permittee is responsible for any of Permittee's actions off the right of way to adjoining property owners.
- Boundary County will in no way be held responsible for any errors, omissions or interpretation as to county right of way or easements.

This access permit does not express or imply the existence of County permits, access easements or right of way, public or private, nor does it change existing property or easement ownership in any way. This permit authorizes work in county right of way only.

I certify that I am the owner of the proposed property to be served and agree to do the work requested hereon and in accordance with the Permit and any special provisions, plans and drawings made a part of this permit.

Subject: Rustic lane access

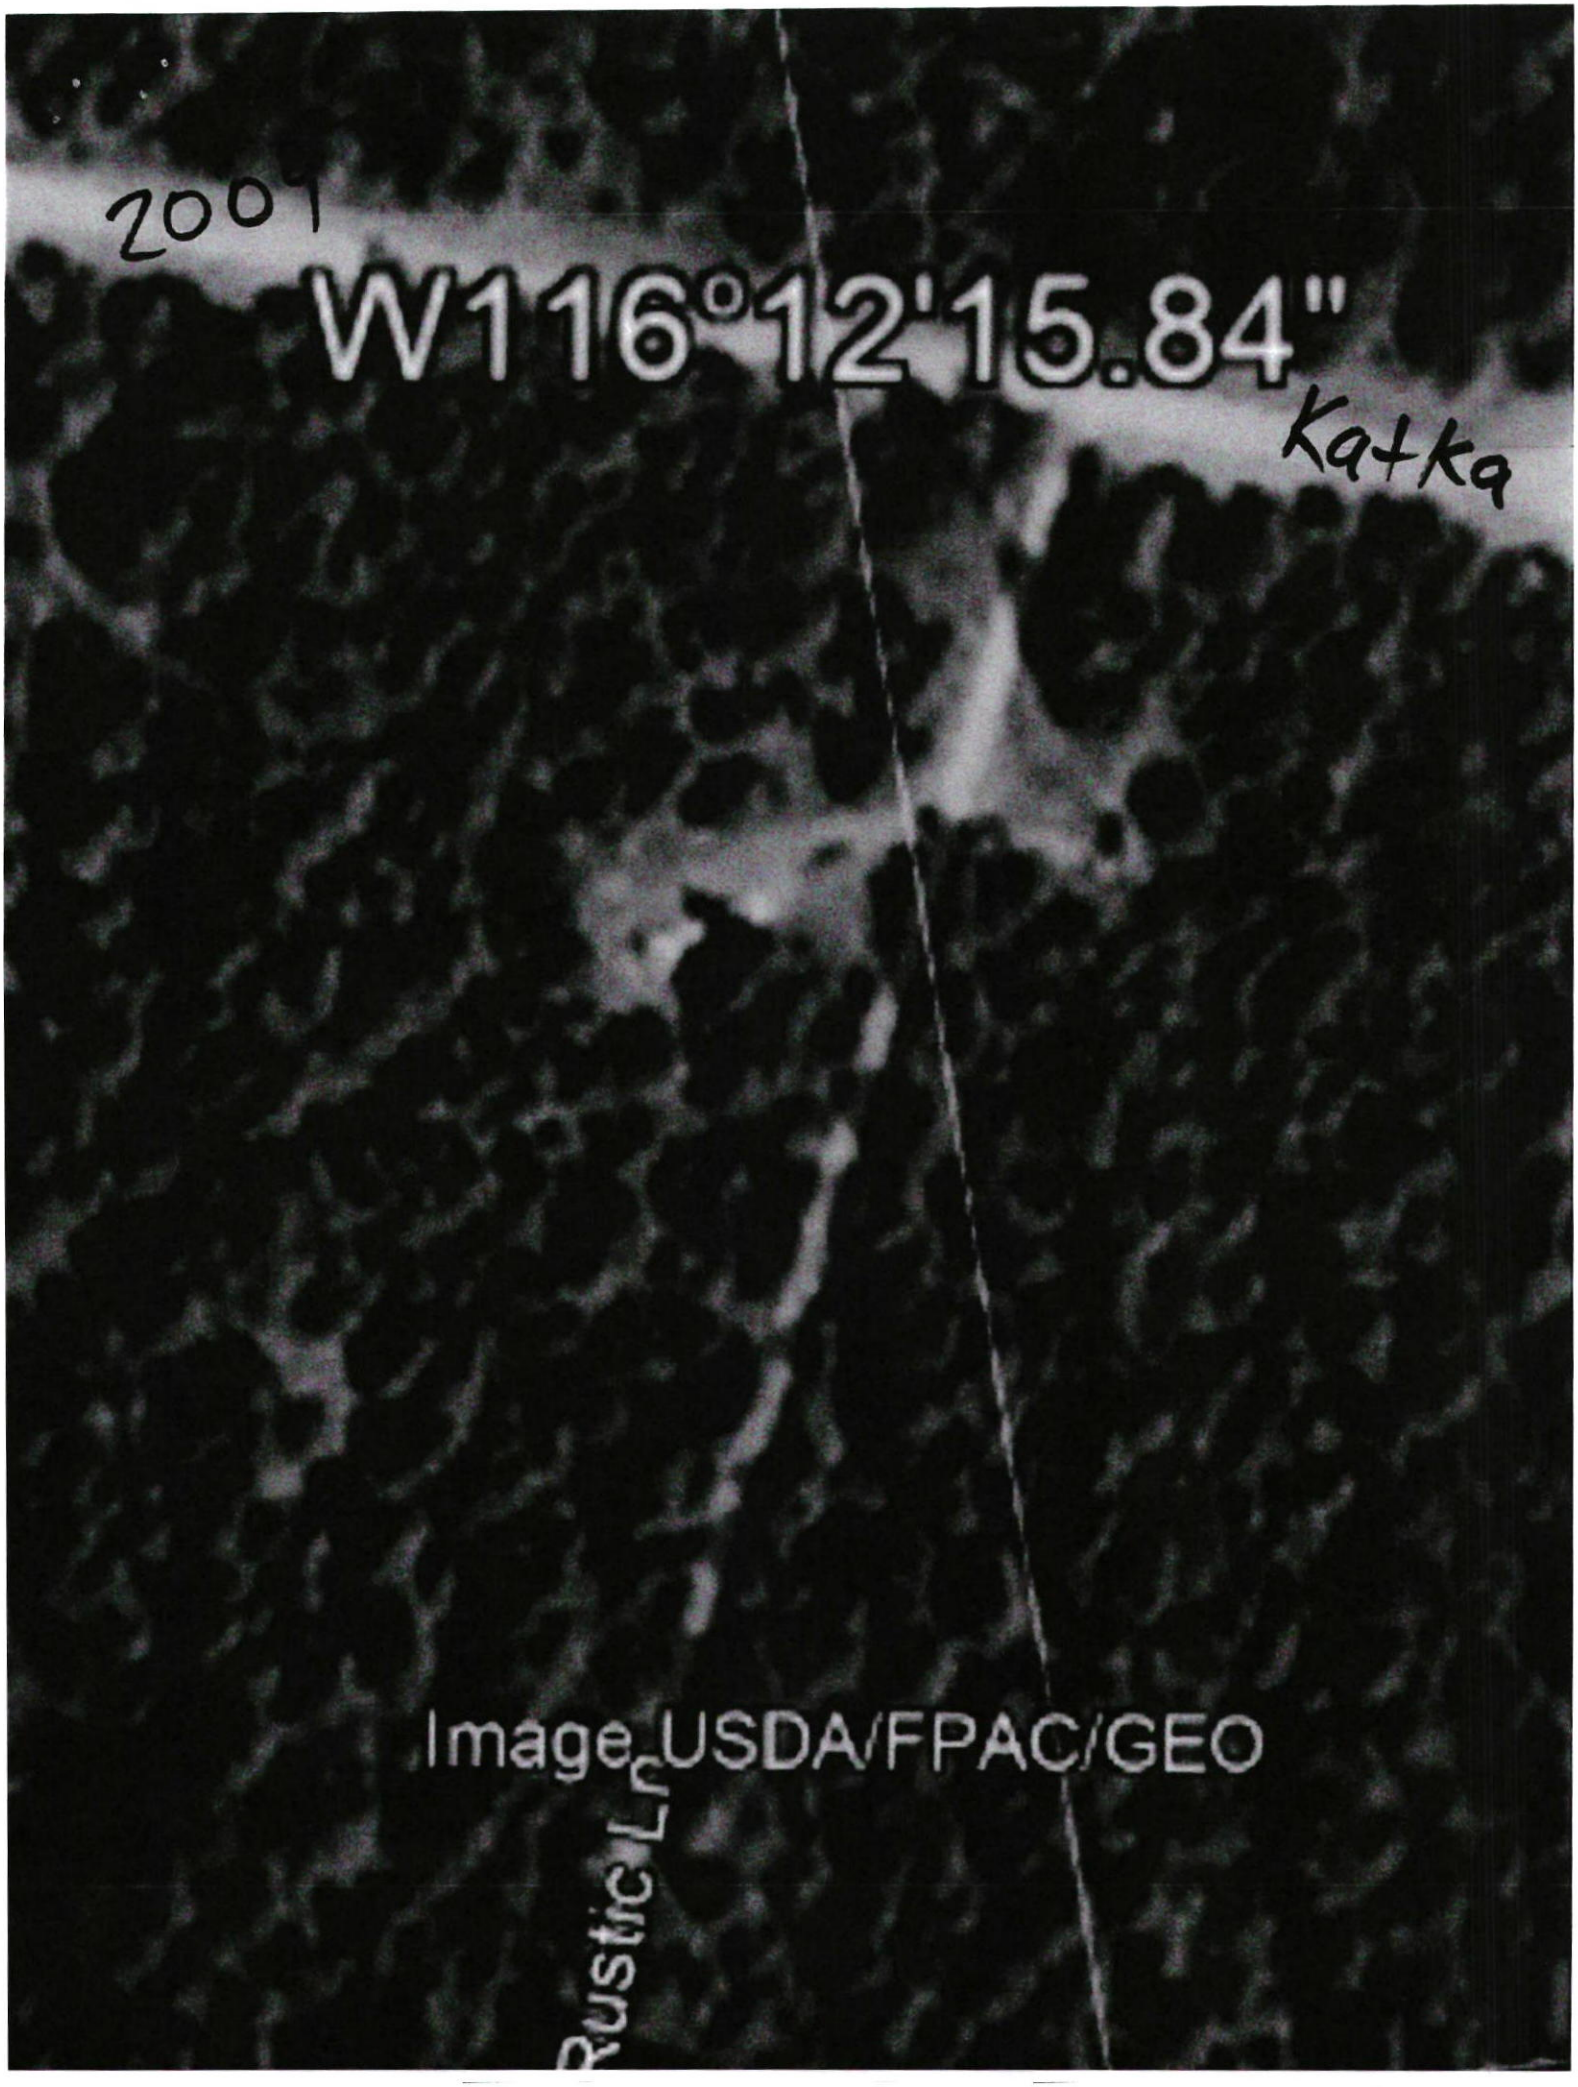

Hi Renee, thanks for your help with this situation. We dropped off some historic maps that show that the Rustic Lane access was nice and wide up until the last few years where it has drastically gotten worse.
We drove up and looked at it again and basically it has always been between the 2 trees, but they have encroached 2-3' on both sides of the trees, so it has affected the access onto Katka.
If you would like the information digitally, let me know and we can send them over.
We are still searching for the specific map that we were talking about...
Thanks again, Jeff and Sandra Bundy

RE: ZV0003A-24; Notice of Possible Violation: Junkyard, unpermitted dwelling, setback violations on Parcel RP002700020020A, 30 Rustic Lane

Dear Mr. Neumayer:

Boundary County has been notified of a possible violation on your parcel (Assessor's Parcel RP002700020020A) addressed at 30 Rustic Lane, regarding the use of a commercial or non-commercial junkyard, an unpermitted dwelling, and the required setbacks not being met for the Rural Residential zone. Per the Boundary County Land Use Ordinance, commercial junkyards are prohibited per **Section 15.10.6.** and non-commercial junkyards would require a conditional use permit when located within 500 feet of a neighboring residence per **Sections 15.4.7., 15.10.5.** and **10.5** (standards for commercial junkyards). Photos provided to Boundary County show multiple vehicles and vehicle parts stored on site that appear to be derelict, which is considered a junk yard by county land use code definitions below.

> ***2.31 Junkyard:*** *A "junkyard" is the use of any lot, parcel or tract of land for the outdoor storage or abandonment of refuse; or for the storage, impoundment, dismantling, demolition, salvage or abandonment of more than three (3) derelict automobiles, other vehicles or parts thereof. A derelict vehicle is any vehicle that is clearly inoperable and unable to move under its own power; or which is partially or totally dismantled or damaged so as to render the vehicle unsafe or illegal to operate on public roads or rights of way. This definition shall not include implements of husbandry, farm tractors or vehicles customarily operated in a farming, ranching or agricultural operation, nor impoundment lots established by the Boundary County Sheriff or Prosecutor as necessary for law enforcement.*
>
> > ***2.31.1. Junkyard, Commercial:*** *A junk yard for the purpose of commercial gain and for which an Idaho tax identification number is required.*
> >
> > ***2.32.2: Junkyard, Non-Commercial:*** *A junkyard for purposes other than commercial gain and for which no Idaho tax identification number is required.*

All residential dwellings require a placement permit application to be applied to and issued by the Boundary County Planning & Zoning Department prior to any construction. Boundary County has been notified of a residence that has been built on the northern portion of your property without the required permits and the required 20-foot setback to all property lines and roads.

If you have information that indicates these uses are not in violation, please notify the Boundary County Planning & Zoning Department in writing **within 10 days of this letter**, **April 22, 2024** (may be dropped off in-person, mailed, or emailed). Otherwise, within 10 days of the date of this letter, please submit permits and associated fees showing you are in compliance with the Boundary County Land Use Ordinance, or remove the alleged violation(s) and advise this department in writing of the violation abatement. Failure to comply is a violation of the Boundary County Land Use Ordinance and may be subject to infractions and misdemeanor penalties established by **Section 4.1.**, *Infractions: A civil public offense not constituting a crime, for which a penalty not to exceed $100 per occurrence may be imposed.*

As annotated in this ordinance, infraction violations include a failure to obtain a conditional use permit. Misdemeanors: Fine not to exceed $1,000 per occurrence.

If you have any question regarding this request, please contact me or Clare Marley at planning@ruenyeager.com or at 208-265-4629. Thank you for your anticipated cooperation.

Sincerely,

Tess Vogel MS,

Marc & Tamara and Darron,
Sorry the email just returned to me, I had a 1 instead of an "l" in your email address.

Please find attached the approach permit #22091 for your Katka Road approach.
When the construction of the approach is completed please let Road & Bridge know and we can complete the post inspection and sign off on the permit.
I have copied Darron so that he will have a copy of the permit with the requirements.

I have also attached a new address request form in case you want to have an address associated with your parcel for E911 when you are camping on site.
If you desire one, please fill out the form and return it and I will give it to the Addressing Coordinator and she will assign an address.
Please let me know if you receive the email.

Thank you for working with us,
Renee

Approach Permit

(Driveways and Road Approaches)

To be completed by Boundary County Road & Bridge

22091

XX **Residential Driveway.**

- **Requires a minimum** 18 **inch x** 40 **feet corrugated metal culvert, longer acceptable.**
- **Excavate ditch line to remove sod and to match ditch line of existing drainage.**
- **Over excavate driveway and replace with ¾" minus crushed aggregate for a minimum of 6 inch depth. If culvert required, bed and backfill with ¾" minus crushed aggregate for a minimum of 4 inches compacted depth under culvert and 6 inches compacted depth over culvert, leaving a minimum of 2 feet culvert exposed on each end. Moisten aggregate for compaction.**
- **Driveway must leave county road for 2% to 4% negative slope back for 15 feet from shoulder.**
- **Driveway to intersect roadway as close to 90 degrees as possible.**
- **Driveway to be constructed as per attached "Fig 3.1 Residential Driveway Approach."**
- Brushing removal both directions of approach to obtain 300 feet of sight distance.

N/A Roadway Approach.

- Requires a minimum [—] inch x [—] feet corrugated metal culvert, longer acceptable.
- Excavate ditch line to remove sod and to match ditch line of existing drainage.
- Over excavate driveway and replace with ¾" minus crushed aggregate for a minimum of 6 inch depth. If culvert required, bed and backfill with ¾" minus crushed aggregate for a minimum of 4 inches compacted depth under culvert and 6 inches compacted depth over culvert, leaving a minimum of 2 feet culvert exposed on each end. Moisten aggregate for compaction.
- Driveway must leave county road for 2% to 4% negative slope back for 50 feet from shoulder.
- Driveway to intersect roadway as close to 90 degrees as possible.
- Driveway to be constructed as per attached "Fig 3.2 Roadway Approach."

N/A Commercial/Farm Approach (includes temporary or permanent logging roads)

- Requires a minimum [—] inch x [—] feet corrugated metal culvert, longer acceptable.
- Excavate ditch line to remove sod and to match ditch line of existing drainage.
- Over excavate driveway and replace with ¾" minus crushed aggregate for a minimum of 6 inch depth. If culvert required, bed and backfill with ¾" minus crushed aggregate for a minimum of 4 inches compacted depth under culvert and 6 inches compacted depth over culvert, leaving a minimum of 2 feet culvert exposed on each end. Moisten aggregate for compaction.
- Driveway must leave county road for 2% to 4% negative slope back for 50 feet from shoulder.
- Driveway to intersect roadway as close to 90 degrees as possible.
- Driveway to be constructed as per attached "Fig 3.3 Commercial/Farm Approach."

Special Provisions:

Variance allowed from Road Standards:
3.3.B- On collector roads, no new access should be located within three hundred thirty (330) feet from any existing access or the intersection of two public road rights-of-way.
AND
3.3.H.- The provisions established herein shall likewise not necessarily preclude establishing a new access or approach to any lot or parcel lawfully created before January 23, 2007. Such new approaches will be examined by Road and Bridge on a case-by-case basis, and variances from the strict standards herein may be granted when doing so does not create hazard.

Per Assessor's office on 9/1/2022 parcel can be traced back to 1999 as current parcel tax identification number.

No hazard created, good site distance when permit requirement for brushing is met.

Hi Renee,

Attached is a rough sketch of Mr. Jones property. He is looking to add an approach 75' from his West line. Locates will be ordered shortly for the proposed approach. We have marked Katka road for 811 with orange paint. Culverts and approach width to be installed to county spec.

Let me know if you need anything additional.

Marc is in town for a few days and can be reached at [redacted].

Thank You,

Darron,
Received your email and the permit.
There does not appear to be a sketch or map attached which is required with the permit per page 1.

Our crew is chip sealing this morning, and I will be helping shortly so I can't meet on site.
Would there be time to meet possibly on Thursday?

Will also need to have the drawing with footages from property corners, etc. prior to being able to complete the permit.

I tried a couple of times to call Marc yesterday but his voicemail was not set up it said.

Thanks
Renee

Hi Shelby!
Yes this is so awesome. We would like to proceed. We will drop off a cheque soon. Thank you so much!
Please let us know when you find out about the tourism one. We would love to get that as well.
Take care and have a great day!
Jeff and Sandra Bundy

Hi! Thank you guys so much for putting up the Rustic Lane road sign.
It looks awesome. Super job!
We would still like the Airbnb tourism sign. So, please let us know how we go about getting this.
Is there an application?
Take care and have a great day!

Jeff and Sandra,

I have attached a permit for one load of rock today.
We are experiencing much road damage this spring, so loads are being reduced and we are checking roads daily. We will check the roadway out to Glacier today and if more loads per day or additional days are allowed will update you with this information.

Thank you for working with us during this spring break up period.

Jeff,
I'm still waiting for the information on the roads that you will be traveling on? Can you please get them to me and the weight of each load. Thanks Kenna

Hi Kenna! Thanks for sending this last permit. Are the road bans still on or were you able to lift them? The weather has been crazy.
If they are still active would you be able to email us another permit for the next 3 days. We need to haul brush to the dump and gravel from the pit using the same vehicle and trailer.
Please let me know if you require any other information.
Thanks! Jeff and Sandra Bundy

Hi Renee, there are no signs on either end of the 90 degree corner.
We would like to make an appointment to come by and show you the map we have from the title company. Are you an available at 3:30 tomorrow?
Thanks, Jeff and Sandra Bundy

Jeff,

We have checked the road and we can allow 2 loads each day for Monday through Wednesday. It sounds like this should cover the 5 loads you needed and you can choose the days to haul 1 or 2 loads. I also updated the permit to reflect Katka and Crossport only. AS each road has different areas of concern, it does sometimes make a difference to know where you are hauling from.
Let us know if you need anything further.
Thanks,
Renee
