

Subject **Public record request**
From Marie Garrett [REDACTED]
To PublicRecordsRequest <publicrecordsrequest@boundarycountyid.org>
Date 2026-09-18 02:04 PM

This is a public record request for the following:

Any/all records pertaining to Adrienne Norris aka "Boundary County Watchman" alleged targeting and cyber bullying of Boundary county prosecutor/City of Bonners Ferry Attorney Andrakay Pluid's juvenile child, following "Boundary County Watchman's" publishing of a photo of Pluid's juvenile child, with incitement of public commentary of Pluid's juvenile child, while expressing dissatisfaction in Prosecutor Pluid's role of Boundary County Prosecutor.

Please include all records of the above referenced published content of "Boundary County Watchman" and any and all communications or records of Andrakay Pluid and any other personnel concerning the matters associated with the alleged targeting and cyber bullying of Pluid's juvenile child.

I am submitting this request, as my own family has experienced targeted retaliatory crimes and safety events with no investigation or action from Boundary County officials.

This should go without saying, but considering unredacted juvenile records have routinely been released by Boundary County agencies- this is a reminder to apply all required redactions to the responsive records.

I am an Idaho resident.
Please provide record via email delivery

Requester: Marie Garrett

You and I both know that that does not matter at all. You all but post her name.

I would ask you to exercise some level of civility or professionalism and remove pictures that depict minor children whether or not their faces are shown.

As a parent and a human I would hope you would recognize how incredibly inappropriate it is to take your issues with me out on a child.

You said the point of the post was to "identify" what was in the picture and then "what you should do." You've obviously identified what you believe the item is and who is in the picture. At this point all you are doing is cyber bullying a child. Again, your actions are cowardly.

This letter is in response to your emails dated October 19 and 20, 2025. Its purpose is to address the allegations made therein and to formally document a series of events for the record.

In good faith, I am willing to remove the photograph that depicts an individual whose head and face were fully redacted, while maintaining the written post. I do not concede that a redacted image of a non-identifiable person violates any law or policy, but I am taking this voluntary step as a gesture of goodwill since you kindly asked me to. My intent was not to harass or embarrass anyone; because the face was removed, I did not believe the individual could be recognized. I respectfully ask that no assumptions be made about my intentions.

As a comparison please find the attached photos of the Boundary County Fair Facebook post dated July 8, 2024. This photo was posted with an unredacted photo of six minor girls. In the comments three names are being alleged. The Prosecutor serves as the county's legal counsel for official matters including issues involving county property, contracts, and governance. My hope is that you will take immediate action to protect those minors as you have done for your own family.

Using your position and official communication channels to ensure a family member's photo is removed... especially a photo where the face/head has been redacted, while leaving the Boundary County Fair's photo of other children's faces/head seems selective and possibly bias. Everyone should be held accountable for their illegal actions regardless of their status.

And while we are on the ethical subject a good prosecutor would realize when their isn't enough evidence to prosecute someone and dismiss the case versus causing emotional and financial stress on the innocent by keeping them in the court system (ham sandwich). In my opinion you did that to Shannon Dabbs, Misha Nevarez, Jennifer McLeish and others. Please look at all your cases and be ethical moving forward.

I recognize the importance of civility and professionalism; those standards, however, must operate in both directions. I expect the same courtesy and restraint from your office that you have requested of me. My activities as a citizen watchdog have been conducted lawfully and are protected under the First Amendment.

Without making any allegation of wrongdoing, I wish to preserve the following record of events. These incidents, when considered collectively, have caused me concern regarding the potential for retaliatory or inconsistent treatment of a citizen engaged in lawful oversight activities.

Chronology of Incidents for the Record

Summer 2022: Involvement of your office in a local library recall petition matter, a context in which prosecutorial neutrality would ordinarily be expected.

Dec 2022 to Mar 2023: A cease-and-desist letter was issued by your office regarding my use of the county seal. This was followed by a series of articles in the Bonners Ferry Herald over approximately nine out of ten weeks that referenced me in connection with the matter. A cease and desist is a matter that could end in litigation. Therefore Idaho Statute states

it should have been discussed in Executive Session. Yet, it was described on the agenda, open to the public and somehow the journalist showed up to every agenda item. "TRIAL BY MEDIA"

Jan 2025: Misleading police report was filed by your office after I called in January to request Misha's case number (no other questions). My understanding is that her no-contact order allows her to conduct court related business at the courthouse. To her credit, Misha maintained appropriate distance from your office.

Mar 2025: During a proceeding before Judge Susie Jensen, a comment was made in open court regarding a community member offering legal guidance to a defendant. This comment was made the day after I received my Judicial Review concerning Judge Jensen.

2025: A "love" emoji reaction was attributed to your social media account on a public post that described me as "borderline terrorist" and "racketeering." Counsel has advised me this conduct may be inconsistent with professional and ethical expectations for a public official, especially in a prosecutorial position.

Multiple Times in 2025: I have been informed of law enforcement "investigations" concerning me, yet I have never been contacted or interviewed in connection with them. I have been told a file currently resides with a prosecutor's office.

Oct 2025: I submitted a request to your office to request a conflict of interest regarding the Garrett case, which involved the public release of un-redacted medical information pertaining to a minor. Subsequently, I was contacted by the Sheriff who was not copied on my request. He urged me to withdraw it to prevent the tort claim from escalating.

Your strong assertion that my posting of a redacted, non-identifiable image constitutes "cyber-bullying" appears inconsistent with the lack of official concern demonstrated regarding the documented release of confidential juvenile medical information in the Garrett matter and six minors allegedly breaking into the fairground's building. This apparent disparity raises concerns about the unequal application of confidentiality principles.

Your emails of October 19-20, 2025, which contained the allegation of "cyber-bullying a child," were sent from your official county government account and distributed to other public officials. This written statement concerning my character and reputation has been preserved. I have been advised that such correspondence may be inconsistent with the Idaho Rules of Professional Conduct.

I am providing this letter to formally document my actions and preserve a clear record should any external review of these matters become necessary. My ongoing goal is to promote transparency, accuracy, and respect for lawful process.

Ms. Norris,

I am not sure what you are trying to allege, but this picture is relating to a juvenile who was charged with an Under 21 DUI and has been adjudicated. No child of any law enforcement officer or judicial system officer was involved in the offense itself or any illegal activity related to this crash. You're welcome to request the records related to this incident.

I am deeply troubled by what appears to be a targeted smear campaign against a minor child. I would suggest that if you have concerns about a child making poor choices, perhaps you should address that in a manner that doesn't subject a child to suggestions and innuendo online.

I am an adult, I have chosen to be in the public position I am in. My children have not made that choice and harassing them for the professional choices of a parent is cowardly.

I am writing to inquire about the proper procedure for submitting the attached evidence. I have been informed that it depicts a minor, identified as G [REDACTED] P [REDACTED], with a vape.

Given the nature of this material, I do not feel comfortable retaining it without reporting it to the appropriate authorities. Please advise me on the correct process or office to which this information should be submitted for review. I understand this girl is related to Prosecutor Andrakay Pluid so I would assume an outside agency would be need address the photo accusations.

Definitions and age threshold

The statute defines “tobacco product or electronic smoking device” broadly (including vape pens, e-cigarettes, etc.).

Idaho’s law aligns with the federal minimum legal sales age: persons must be 21 years of age to purchase or be sold tobacco products or electronic smoking devices.

Idaho Code § 39-5703 — Possession, Distribution, or Use by a Minor

“It shall be unlawful for a minor to possess, receive, purchase, use, or consume ... tobacco products or electronic smoking devices or to attempt any of the foregoing.”

Thank you for your time and attention to this matter.
